Excerpt from *The Founder's Manual* A Presentation of Modern Foundry Operations for the Use of Foundrymen Foremen Students and Others While there is little a foundryman needs to know which has not been fully treated by competent authorities there is not so far as I am aware any summary of this great mass of publications In a foundry experience covering many years I have frequently spent hours at a time in searching for special information Believing therefore that a compilation of this matter with authoritative instruction for the solution of the many problems which are continually presented in the foundry all properly arranged for ready reference would receive a favorable reception an attempt has been made to meet this need by the production of this book The material for the Manual has been drawn from every available source The proceedings of the American Foundrymen's Association have furnished no end of information The publications of Professors Turner Porter Reis Dr Moldenke Messrs Keep Longmuir Outerbridge West and others have been most carefully searched Much has been taken from *The Foundry Castings and Iron Age* A great many of the Foundry records are given in full Possibly in some cases special credit for extracts has not been accorded for such omissions indulgence is asked as there has been no intentional neglect or lack of courtesy About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
