FinePix E550

With the top model of the new E-series, the FinePix E550, Fujifilm unites the best in sensor technology and excellent handling in one camera. The E550 offers the ambitious photographer many interesting functions such as varied motif programmes and comprehensive manual setting opportunities. The newest 6 megapixel HR version of the Super CCD sensor (High Resolution) allows one output file of up to 12 megapixels. Thanks to further improvements to the unique Super CCD sensor the E550 offers sensitivity starting at ISO 80 in combination with substantially lower colour noise levels - this results in clear, bright and balanced pictures, even in difficult light conditions. Besides the sensor improvements the FinePix E550 offers a 4x optical zoom with a focal range from 32.5mm to 130mm (as equivalent to a 35mm analogue camera) and 6 million effective (12 million recorded) pixels, thus enabling colour photo prints, even in poster format. The 2" large LC display on the rear of the solid casing simplifies both the search for a motif and the observation and subsequent processing of the pictures directly with the camera. The new E550 is, together with its smaller sister models (E500 and E510), PictBridge compatible - pictures can thus be printed on the home printer without using a PC.
