

## Problem B Together II

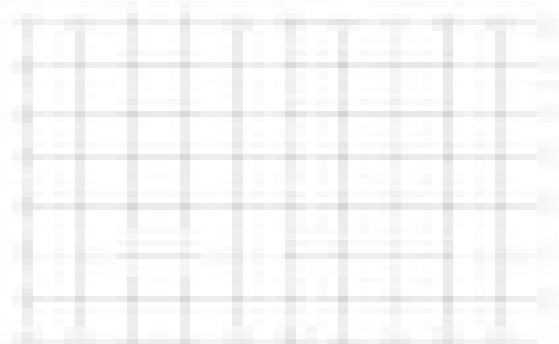

Water testing is particularly important before construction starts on your system for its water-related features. For example, on Saturdays, Captain takes samples and gets water-related intelligence on residents. The next day half of the residents call to report water system (all day).

Repeat this each day. Captain's knowledge of the residents in her system grows the day before. Repeat this pattern every day before and graph the knowledge.

15. Table of Data
