

The Georgia Department of Agriculture and the Georgia Structural Pest Control Commission administer the Structural Pest Control Act. The Department of Agriculture is also the enforcement agency for the Act. The Act is the primary law for the pest control industry in this state. The requirements for this Act include:

**Company License** - All pest control companies must be licensed before they begin operation.

**Certified Operator** - Every pest management company must have one person who has taken and passed a certification examination. This is a different and more extensive examination than the Employee Registration Examination. The categories of certification are; household pest control (HPC), control of wood destroying organisms (WDO), and fumigation (FUM). A company may only operate in the categories in which it currently employs a certified operator.

**Registered Employees** - All non-certified applicators and salespersons must take and pass an examination before they can operate without direct supervision of a certified operator or a previously registered employee.

**Recertification** - All certified operators and registered employees must be recertified periodically. Registered employees must accumulate training as follows:

- Household Pest Control - 8 hours 3 hours of which shall address proper Integrated Pest Management (IPM)
- Wood Destroying Organisms - 8 hours 3 hours of which shall address proper preconstruction treatments
- Fumigation - 3 hours

Computer based training shall be limited to no more than 4 hours for Household Pest Control of which only 1 hour may address proper Integrated Pest Management (IPM), 4 hours for Wood Destroying Organisms of which only 1 hour may address proper preconstruction treatments and 1 hour for Fumigation.

All credit must be earned before May 1 of each odd numbered year. All registrations, certifications, and licenses expire on June 30th of each odd numbered year.

**Contracts for the Control of Wood Destroying Organisms** - Copies of all contracts and supporting documentation must be kept for two years following the expiration of the contract. A contract must be issued for every treatment before the work begins. The contract must include:

- the specific type of treatment to be performed
- the effective date and contract period
- diagram of the structure(s) showing the area of any active or previous infestation
- price of treatment
- terms of any guaranty or warranty including a disclosure statement as to the type of guarantee
