Go To Sleep:

On Going to Sleep Charles Hewitt Moore, 1868 *Sleep Works* Sebastian P. Klinger, 2025-01-07 An exploration of sleep at the intersection of literature science and pharmacology in the early twentieth century At the turn of the twentieth century sleep began to be seen not merely as a passive state but as an active dynamic process crucial to our understanding of consciousness and identity In *Sleep Works* cultural historian and literary scholar Sebastian P Klinger explores the intriguing connections between scientific inquiry and literary expression during an era when sleep was both a scientific mystery and a cultural fascination Scientists physicians and pharmaceutical companies were at the forefront of this newfound fascination with sleep some researchers distinguished sleep from related states such as fatigue and hypnosis while others investigated sleep disorders and developed treatments for insomnia Meanwhile literary giants like Franz Kafka and Marcel Proust grappled with their own sleep disturbances and channeled these experiences into their writing Through the lens of their discoveries Klinger reveals the broader implications of sleep for concepts of selfhood and agency Tracing the emergence of interdisciplinary sleep science and the cultural production of sleep through literature *Sleep Works* weaves together literary analysis historical context and research in the archives of the pharmaceutical industry to provide a comprehensive and compelling account of how sleep has been understood represented and experienced in the modern era **The Women's**
