The Unmaking of Arab Socialism Ali Kadri, 2016-10-01 Conditions of malnutrition conflict or a combination of both characterize many Arab countries but this was not always so As in much of the developing world the immediate post independence period represented an age of hope and relative prosperity But imperialism did not sleep while these countries developed and it soon intervened to destroy these post independence achievements The two principal defeats and losses of territory to Israel in 1967 and 1973 as well as the others that followed left in their wake more than the destruction of assets and the loss of human lives the Arab World lost its ideology of resistance The Unmaking of Arab Socialism is an attempt to understand the reasons for Arab world s developmental descent from the pinnacle of Arab socialism to its present desolate conditions through an examination of the post colonial histories of Egypt Syria and Iraq

Development and Distribution Andy Sumner, 2018-07-03 Since the Second World War surprisingly few developing countries have experienced a truly sustained episode of economic and social convergence towards the structural characteristics of the advanced nations East Asia has exceeded most regions in its achievement of convergence and much has been written on comparative industrialization and development in North East Asia Less discussed is South East Asia and the surprising and inclusive transformation several of its countries has undergone *Development and Distribution* focuses on South East Asia and more specifically on Malaysia Indonesia and Thailand These three nations have all undergone a major transformation in a way never anticipated from being poor agrarian countries to middle income countries with developed industrial and manufacturing bases How did Malaysia Indonesia and Thailand achieve such a transformation and how did they achieve the transformation with a form of economic growth that was driven by structural transformation but that was inclusive Given that historically it has been thought that structural transformation tends to push up inequality whilst inclusive growth necessitates static or even falling inequality this last point is particularly salient to developing countries Understanding how the transformation was possible in a relatively small space of time the extent to which it was inclusive and the caveats and prospects for South East Asia is thus an area of enquiry significant to all developing countries as they seek economic and social transformation

Generation Jobless? P. Vogel, 2015-03-05 Offering guidance on the

opportunities and threats for future generations and featuring interviews with business leaders this book provides a constructive look at change It directs the youth to become job creators not job seekers and to approach the corporate and political worlds with an entrepreneurial mind set **The Way Back** F. H. Buckley,2017-11-07 The promise of America is that with ambition and hard work anyone can rise to the top But now the promise has been broken and we ve become an aristocracy where rich parents raise rich kids and poor parents raise poor kids We ve been told that the changes are structural that there s nothing we can do about this But that doesn t explain why other First World countries are beating us hands down on the issue of mobility What s different about America is our politics An ostensibly progressive New Class of comfortably rich professionals media leaders and academics has shaped the contours of American politics and given us a country of fixed economic classes It is supported by the poorest of Americans who have little chance to rise an alliance of both ends against the middle that recalls the Red Tories of parliamentary countries Because they support an aristocracy the members of the New Class are Tories and because of their feigned concern for the poor they are Red Tories *The Way Back* explains the revolution in American politics where political insurgents have challenged the complacent establishment of both parties and shows how we can restore the promise of economic mobility and equality by pursuing socialist ends through capitalist means OECD Economic Surveys: United States 2022 OECD,2022-10-12 The United States economy rebounded strongly from the depths of the pandemic recession aided by a large and enduring government policy response However Russia s war against Ukraine and strong inflationary pressures have dampened the economic outlook The administration is reinforcing public welfare through packages that invest in infrastructure and the climate transition but an ageing population means fiscal pressures are on the horizon *Seeking Equality* John Harles,2017-10-25 *Seeking Equality* compares economic inequality in the United States and Canada The North American neighbors have much in common socially politically and economically yet Canadians enjoy significantly higher levels of equality and material well being Harles explores the values and policy decisions that have influenced these different economic outcomes Drawing on the Canadian experience he explains why a yawning gap between the very rich and the rest should be cause for civic anxiety in the United States and what can be done about it **State, Land and Democracy in Southern Africa** Arrigo Pallotti,Corrado Tornimbeni,2016-03-03 Each country in southern Africa has a unique history but in all of them socio economic inequalities and high poverty levels weaken the governments legitimacy and represent a challenge to models of economic development One key issue appears to be the solution of the land question This vital concern affects both citizenship and democracy in the political systems of the region yet no government has shown the capacity or commitment to solve it In this volume leading European American and African scholars explore in detail the relationship between state land and democracy They examine the historical background of asset allocation and its impact on questions of nationality the definition of citizenship human rights and the current political and economic processes in southern Africa
