## Grade 12 Religion Notes:

*Religious Diversity in Canadian Public Schools* Dia Dabby, 2022-02-01 Canadian public schools have long been entrusted with the mandate of socializing children Yet this duty can rest uneasily alongside religious diversity questions Grounding its analysis in three seminal Supreme Court cases involving religion in schools *Religious Diversity in Canadian Public Schools* reveals legal processes that are unduly linear compressing multidimensional conversations into an oppositional format and stripping away the voices of children themselves Dia Dabby contends that schools are in fact microsystems worthy of their own consideration and with the power to construct their own rules and relationships This compelling work connects many of the themes that have animated public discourse since multiculturalism was officially enacted in Canada Situating its analysis in relation to concepts of nation education and diversity *Religious Diversity in Canadian Public Schools* encourages a deeper conversation about how religion is mediated through public schools and invites a critical reassessment of the role of law in education

**Resources in Education**, 2001 **Religious Education in the Mirror of a Life Trajectory** Abdulkader Tayob, 2020-04-17 The study of religious education is of great interest in analyzing how schools and educational authorities address the demands of multicultural and multi religious societies and states As diversity increases through migration globalization and conflicts schools are faced with equally diverse challenges one of which is the religious and cultural diversity that characterizes schools and communities While many studies have focused on this change and its impact in politics school and classroom relatively few have focused on how teachers and educators have fared Sitting between the new policies and school demographics teachers and educators have shaped the policy in their engagements The study of life trajectories shows that the lines between religion and religious education are blurred in personal life histories and that positions can shift due to personal and contextual developments They point to the innovative and unexpected turns that individuals trace in their personal life journeys This book reminds us that we need to pay more attention to the teachers principals managers and public intellectuals who shape and are shaped by the changing context of religion and religious education This book was originally published as a special issue of *Religion Education*
