

AP WORLD HISTORY STUDY GUIDE

Unit 1 (1200-1450):

1.1: State Building in China

- China was kind of like the Texas of the ancient world: Don't mess with China.
- In 960, China was split into regional kingdoms again as the power of the Tang Dynasty was gradually waning. Zhao Kuangyin: ruler of one of those kingdoms that took it upon himself to unify most of them all again as the Song Dynasty. (960-1279)
- Song State Structure: 6 departments
 - Personnel, finance, rites, army, justice, and public works.
 - Censorate overseeing these departments. Made sure no one in these bureaucratic departments were behaving bad.
- Confucianism: chief things that helped organize the government.
 - Great continuity in Chinese culture over the years
 - According to Confucian thought, reality is fundamentally hierarchical. Everyone has their place in society, and everyone needs to behave rightly and fulfill their role for everything to go well. (People subject to rulers, etc.)
- Civil service examination:
 - Influenced by Confucian ideals. Major part of the exam was being WELL VERSED in Confucian ideals.
 - A test you had to pass in order to work in the imperial bureaucracy.
 - Led ruling from a heretic form of aristocracy to a new class of scholarly leaders
 - Aristocracy: a form of government in which power is held by the nobility.
- Chinese merchants participated heavily in robust system of long-distance trade across Afro-Eurasia.
 - Increasingly commercialized Chinese society. People began to produce goods not only for local consumption, but also for distant markets. Chinese manufacturing FLOURISHED during this period.
- By the 11th century, China's iron industry was producing 32,000 suits of armor and 16 million iron arrowheads ANUALLY.
- As commerce grew, role of money also changed. As economy grew, there was not enough precious metal available for minting coins to keep up with the demand.
 - Introduction of paper money
 - Became more popular than minting coins
- Gunpowder
 - Accidental discovery by Daoist alchemists trying to discover elixir of immortality.
 - First application was fireworks and pyrotechnic displays for imperial court, not in a military context.
 - Military context next.
- Influenced Japan
 - Chinese influence was all over Japanese culture.

The Colonial Past in History Textbooks Karel Van Nieuwenhuyse, Joaquim Pires Valentim, 2018-05-01. This book examines the evolving representations of the colonial past from the mid 19th century up to decolonization in the 1960s and 70s, the so-called era of Modern Imperialism in post-war history textbooks from across the world. The aim of the book is to examine the evolving outlook of colonial representations in history education and the underpinning explanations for the specific outlook in different former colonizer and colonized countries to be found in collective memory, popular historical culture, social representations, identity building processes, and the state of historical knowledge within academia. The approach of the book is novel and innovative in different ways. First of all, given the complexity of the research, an original interdisciplinary approach has been implemented, which brings together historians, history educators, and social psychologists to examine representations of colonialism in history education in different countries around the world while drawing on different theoretical frameworks. Secondly, given the interest in the interplay between collective memory, popular historical culture, social representations, and the state of historical knowledge within academia, a diachronic approach is implemented, examining the evolving representations of the colonial past and connecting them to developments within society at large and academia. This will allow for a deeper understanding of the processes under examination. Thirdly, studies from various corners of the world are included in the book. More specifically, the project includes research from three categories of countries: former colonizer countries including England, Spain, Italy, France, Portugal, and Belgium; countries having been both colonized and colonizer, Chile; and former colonized countries including Zimbabwe, Malta, and Mozambique. This selection allows pairing up the countries under review as former colonizing/colonized ones, for instance, Portugal/Mozambique, United Kingdom/Malta, allowing for an in-depth comparison between the countries involved. Before reaching the research core, three introductory chapters outline three general issues. The book starts with addressing the different approaches and epistemological underpinnings of history and social psychology as academic disciplines hold. In a second chapter, evolutions within international academic colonial historiography are analyzed with a special focus on the recent development of New Imperial History. A third chapter analyses history textbooks as cultural tools and political means of transmitting historical knowledge and representations across generations. The next ten chapters form the core of the book, in which evolving representations of colonial history from mid 19th century until decolonization in the 1960s and 1970s are examined, explained, and reflected upon for the above-mentioned countries. This is done through a history textbook analysis in a diachronic perspective. For some countries, the analysis dates

back to textbooks published after the Second World War for other countries the focus will be more limited in time The research presented is done by historians and history educators as well as by social psychologists In a concluding chapter an overall overview is presented in which similarities and differences throughout the case studies are identified interpreted and reflected upon *Almond Books History & Civics Study Guide for ICSE Class 10 for 2024 Exam - Chapterwise & Categorywise Notes, ICSE School Prelims, MCQs, Previous Years Board Questions, Fully Solved* Almond Books, 1 & 2 *Kings: An Introduction and Study Guide* Lester L. Grabbe, 2016-12-01 Lester L Grabbe provides a concise and up to date introduction to the books of Kings covering all the historical and interpretative issues Grabbe pays particular attention to how the history of ancient Israel can be reconstructed or not as the case may be through the text and introduces students to the key ways of reading the books of Kings as religious and political history Grabbe takes a chronological approach according to the text and provides overviews of the key periods of Israel s history The nature of the Deuteronomic History and how well this theory of authorship stands up in the modern day is considered as well as issues of form and source criticism more broadly Grabbe concludes by offering a reflection on the books of Kings in theological and hermeneutical perspective which enables students to view not only the historical and textual issues but also broader issues of meaning and significance
