Theaters of Translation Andrew S. Keener, 2025 In *Theaters of Translation* Cosmopolitan Vernaculars in Shakespeare's England Andrew S. Keener argues that plays by Thomas Kyd Mary Sidney Herbert Ben Jonson and others were shaped by and contributed to a multilingual Europe full of dictionaries grammars and language learning dialogues Bringing together critical discussions and methodologies in transnational literary studies book history and the history of theater and performance Keener proposes a fresh multilingual approach to English Renaissance drama in a way that also liberates the histories of early modern languages and literatures from their national silos Rather than accepting Shakespeare as England's national playwright and instead of inscribing the period's theater and drama within England's political geographic and linguistic limits *Theaters of Translation* demonstrates the intercourse between England's drama and the great variety of multilingual dictionaries dialogues grammars and language manuals circulating throughout Europe Covering the period 1570-1640 when England's drama and crucially the English language itself was a proving ground for linguistic mixture Keener emphasizes the term cosmopolitan vernaculars which refers to non-classical languages that modeled transnational forms of belonging for playgoers readers and authors across early modern Europe in doing so he challenges scholarship that continues to figure Renaissance England as a site of national and linguistic cohesion The critical genealogy of the term cosmopolitan vernaculars is itself rooted in studies of premodern Sanskrit and in postcolonial theory addressing the British Empire so by acknowledging the complexities associated with the terms cosmopolitanism and vernacularity Keener offers a conceptual and historical bridge between the

medieval period and the imperial era making room for linguistic considerations of cosmopolitanism in England among French Italian Spanish and other European languages in relation to the English theater Linking recent contributions to cosmopolitan theory with transnational studies of early modern literature and culture particularly studies examining the dynamics of multiple languages translation and polyglot manuals and dictionaries in Europe Theaters of Translation highlights both the ways in which cosmopolitanism manifests through vernacular languages in print and performance and the ways languages themselves can exhibit cosmopolitanism for those who encounter them on the page or on the stage With this evidence Keener analyzes the workings of cosmopolitan vernaculars in early modern England and in ways that open up new transnational interpretations of plays Theaters of Translation also seeks to make much more out of details known to scholars already such as the fact that Ben Jonson owned and annotated a copy of Pietro Aretino s scandalous Italian dialogues or that Shakespeare s First Folio was advertised for sale in Germany before its London publication but which have been overlooked or obscured because they do not always agree with the prevailing nationally focused approaches to early modern drama in England

Self-Cultivation in Early China Paul Fischer, 2022-07-01 Self Cultivation in Early China is an introduction to multiple aspects of the foundational practice of self cultivation in early China c 1000 to 100 BCE Drawing on the Chinese classics and the dozens of scholars texts both received and excavated that together form the basis of intellectual history for China and all of East Asia the book s analysis relies on the topics and categories that were central to the thought of these authors including such well known thinkers as Confucius and Laozi This book describes a salient point of view from which we may consider the broader landscape of Chinese intellectual history and presents an important paradigm of the scholarly Chinese worldview that is ideal for comparison with paradigms in other communities ancient or modern across the globe
