**Le Corbusier** Kenneth Frampton, 2001-01-16 Panorámico estudio que recoge en la medida de lo posible el itinerario físico e intelectual y la evolución artística de Le Corbusier se alandole como uno de los arquitectos más

influyentes de nuestro siglo. *Le Corbusier's Maison Curutchet* Alejandro Lapunzina, 1997 One of his very few built projects in the Americas. *Maison Curutchet* is a fascinating representation of Le Corbusier's stylistic transitional period bridging his late 1920s purism and the maturity of his later work in India. Like *Casa Malaparte* this book offers an in-depth analysis of a single building through original documents, drawings and photographs.

**Arquitectura y género** Mónica Ceballos, 2003 Esta investigación trata de ser una reflexión crítica sobre la concepción androcéntrica dominante en la Historia de la Arquitectura Occidental. Para ello ha querido manifestar el vacío entre arquitectura y género y política entrelazándolos para analizar la idea de espacio. Se trata de repensar el espacio bajo una nueva mirada la del género es decir a través de las diferencias culturales entre hombres y mujeres ya que como sexo se entiende las diferencias biológicas. Este libro trata de ir contra la pasividad y el silencio impuestos a las mujeres procurando así destruir ideológicamente el lugar y espacio que estas ocupan lugar impuesto con un proceso ideológico transmitido por los hombres a la humanidad a través de la cultura, el arte y la arquitectura entre otras manifestaciones. Si bien el espacio no tiene sexo su valoración se hace a través de quien hace uso de él el espacio no es neutral y denota quién y cómo lo ocupa además de estar relacionado con el poder económico cultural y social. Mónica Ceballos es arquitecta por la facultad de Arquitectura y Urbanismo de la Universidad Nacional de la Plata y

doctora por la Universidad Politécnica de Cataluña Le Corbusier, Sert y Wiener Doris Tarchópolos, 2022-03-31 Este libro reivindica las figuras de Le Corbusier Josep Lluís Sert y Paul Lester Wiener en los planes de construcción de la ciudad de Bogotá. El impacto que tuvieron estos arquitectos en el desarrollo y en la implantación de paradigmas sociales y urbanísticos de la ciudad no es menor a pesar de lo que se ha creído en la academia del país. Acompañado de un rico material gráfico este libro plantea una detallada análisis del panorama histórico de dos episodios especialmente significativos en la construcción de la ciudad y en las ideas de desarrollo derivadas de estos los planes Piloto y Regulador 1949-1953. Estos proyectos delimitaron la zonificación urbana en Bogotá el sistema vial los regímenes de construcción la planificación de la vivienda pública entre otros elementos. Así el lector encontrará en este libro cuidadosamente editado una amplia documentación de estos planes urbanos que se recupera con un serio trabajo de archivo y con la búsqueda rigurosa de Doris Tarchópolos.

Semiótica narrativa del espacio arquitectónico Bruno Chuk, 2005 **Le Corbusier y Sudamérica** Fernando Pérez Oyarzún, 1991 **El sentido de la arquitectura moderna** Helio Piñón, 1998 Rastrear la genealogía de la idea moderna de forma a lo largo de la estética del siglo XIX y analizar el proceso de su desarrollo en la arquitectura del siglo XX es el propósito del programa de doctorado que Helio Piñón dirige en la Escuela Técnica Superior de Arquitectura de Barcelona ETSAB. Este documento contiene una descripción somera de los argumentos que centran dicho programa además de la relación de los temas que lo vertebran y la bibliografía básica necesaria para documentar su estudio. Las ilustraciones evocan el universo visual que se recorre y testimonian el empeño visualista que anima el programa de revisión de la modernidad que aquí se aborda.

El proceso creativo Alberto Dallal, 2006 Papers presented during the 26th edition of the International Colloquium of Art History an event focused on the study of the creative activity in architecture and art from the creator's point of view analyzing the artists their influences and development the external elements that intervene in the creation of art and ultimately in the understanding of the creative process.

**International Design Organizations** Jeremy Aynsley, Alison J. Clarke, Tania Messell, 2022-01-13 This innovative volume brings together international design scholars to address the history and present day status of national and international design organizations working across design disciplines and located in countries including Argentina Turkey Estonia Switzerland Italy China and the USA. In the second half of the 20th century many non-governmental organizations were created to address urgent cultural economic and welfare issues. Design organizations set out to create an international consensus for the future direction of design. This included enhancing communication between professionals educators and practitioners raising standards for design and creating communities of designers across linguistic national and political borders. Shared needs and agendas were identified and categories of design constantly defined and redefined often with overt cultural and political intents. Drawing on an impressive range of original research archival sources and oral testimony this volume questions the aims and achievements of national and international design organizations in light of their subsequent histories and their global remits. The Cold War period is central to the book while many chapters draw on post

**City of Play** Rodrigo Pérez de Arce,2018-05-31 City of Play shows how play is built into the very fabric of the modern city

From playgrounds to theme parks skittle alleys to swimming pools to the countless uncontrolled spaces which the urban habitat affords play is by no means just a childhood affair A myriad essentially unproductive playful pursuits have through time modelled the modern city and landscape Architect and scholar Rodrigo Pérez de Arce's erudite original and often surprising study explores a curiously neglected dimension of architectural design and practice ludic space It is an architectural history of the playground from the hippodrome to the Situationist city of space released from productive ends in the pursuit of leisure But this is more than just a book about how architecture has incorporated play into its spaces and structures it is a history of the modern city itself The ludic imagination impregnated modernist ideals and what begins with the playground ends with a re consideration of the whole sweep of the modern movement through the filter of leisure and play Because play is such a basic or fundamental human experience the book re grounds the architect's concerns with those of non architects and not only those of adults but also of children It seeks to give everyone architects and other ordinary city dwellers alike a better understanding about what is at stake in the making of the public spaces of our cities *Le Corbusier y Sur América* Fernando Pérez Oyarzún, 1987
