It claims that causes and policy implications of these crises cannot be properly assessed by focusing on allocative efficiency or income growth alone; it requires a more general approach based on social costs. It does not deal with social costs according to the Pigouvian or the Coasian traditions. It draws on the work of Original Institutional Economics (OIE) such as Thorstein Veblen, Karl William Kapp and Karl Polanyi, on Post Keynesians such as Hyman Minsky, and in general on authors who have provided insights beyond the conventional wisdom of economic thought.
