Some financial factors that could be considered include the loan amount and interest rate, your starting salary level, the amount of time your graduation is delayed and the impact of the delay on lifetime earnings. and x is less than 10 months.

There is nothing inherently wrong with writing a book to try to make money. However, if the author has no expertise on the book's topic (make millions) then it is an ethical issue if they are sharing ideas and concepts that are not true or have not been proven, or they are making false statements. If the person has in fact become a millionaire as a result of the methods and strategies expressed in the book then it would be acceptable.
