## **Facilities Management Towards Best Practice:**

*Facilities Management* Peter Barrett, David Baldry, 2009-02-18 Facilities management has been one of the fastest growing professional disciplines for some years both in terms of volume and diversity of commercial activity. However, a widely accepted and implemented body of knowledge is still lacking. This book contributes to that knowledge building by taking models and ideas from a wide range of sources and linking them to extensive case study material drawn from practising facilities managers. The text is divided into three parts. Current practice is illustrated with a second chapter looking at enhancing services. Key facilities management issues are considered: user needs evaluation, outsourcing, and computer based information systems. Extensive advice is provided on managing people through change and on decision making. The Second Edition features new material on user needs briefing and procurement strategy together with new public sector case studies. This high quality book provides a comprehensive approach to the range of issues and the combination of case studies with theoretical perspectives and research has a strong practical emphasis. Chartered Surveyor Monthly. A thorough and very well researched book as a student text, it is first class.

**Construction Manager** **Facilities Management** Peter Stephen Barrett, 1995 *Facilities Management* Peter Barrett, 1998 **Facilities Management** Keith Alexander, Brian Atkin, Jan Bröchner, Tore Haugen, 2004-08-02 Facilities Management sets out a new framework for the discipline of facilities management which challenges many of the norms and which sets out new methods for optimising the performance of a business. Successful facilities managers need a range of skills and need to be able to devise a range of innovative strategies for the future of the organisations in which they work. This new book follows on directly from Keith Alexander's ground breaking textbook *Facilities Management* and focuses on four new themes which have been identified as keys to the new strategy: organisational change and learning, innovation, performance and the knowledge workplace. *Strategic Management of Built Facilities* Craig Langston, Rima Lauge-Kristensen, 2013-05-13 The effective management of facilities can significantly improve business productivity. In this textbook the authors provide an overview of facility economics and outline the way in which businesses and facility managers can get better value from their physical assets. Students on facilities management and property related degrees will find this an invaluable introduction. **Facilities Management and the Business of Managing Assets** Danny Then Shiem-Shin, Tan Teng Hee, 2004-08-15 The importance of facilities management to the effective operation of all businesses is now widely accepted. Where there continues to be debate is on what constitutes a successful approach and how much attention it should be given within an overall business plan. Drawing on both research and current practice, this book provides a systematic, innovative and business focused approach to the management of facilities assets. The reader will discover why and how to use facility assets to achieve business goals and strategies by aligning them as a resource. Striking a balance between management and technical aspects, the book covers the basics of facilities asset management and the key elements of a systematic management approach, the key supporting capabilities for

facilities management as a business function a framework for considering strategic alignment of facilities assets and associated services with business needs the role of life cycle asset management and its contribution to business resource management The message of this book and the benefits it can bring to businesses everywhere make it essential reading for executives as well as facilities managers Its detailed explanations of all of the key concepts involved and lists of recommended further reading also make it an excellent resource for those new to the industry and for students of property or facilities management
