Green Chemical Processes Mark Anthony Benvenuto, 2017-10-10 The greening of industry processes i.e. making them more sustainable is a popular and often lucrative trend which has seen increased attention in recent years. Green Chemical Processes the 2nd volume of Green Chemical Processing covers the hot topic of sustainability in chemistry with a view to education as well as considering corporate and environmental interests e.g. in the context of energy production. The diverse team of authors allows for a balance between these different but interconnected perspectives. The American Chemical Society's 12 Principles of Green Chemistry are woven throughout this text as well as the series to which this book belongs.

Creole Composition Vivette Milson-Whyte, Raymond Oenbring, 2019-08-13 Creole Composition is a collection featuring essays by scholars and teachers/researchers working with students in from the Anglophone Caribbean. Arising from a need to define what writing instruction in the Caribbean means, Creole Composition expands the existing body of research literature about the teaching of writing at the postsecondary level in the Caribbean region. To this end, it speaks to critical disciplinary conversations of rhetoric and composition and academic literacies while addressing specific issues with teaching academic writing to Anglophone Caribbean students. It features chapters addressing language approaches to teaching/assessing writing, administration and research in postsecondary education as well as professionalization of writing instructors in the region. Some chapters reflect traditional Caribbean attitudes to postsecondary writing instruction; other chapters seek to reform these traditional practices. Some chapters/interventions emerge from discussions in writing studies while other chapters reflect their authors' primary training in other fields such as applied linguistics, education and literary studies. Additionally, the chapters use a variety of styles and methods ranging from highly personal/reflective essays to theoretical pieces and empirical studies following IMRaD format. Creole Composition, the first of its kind in the region, provides much needed knowledge to the community of teacher-researchers in the Anglophone Caribbean and elsewhere in the fields of rhetoric and composition, writing studies and academic literacies. In suggesting frameworks around which to build and further institutionalize and professionalize writing studies in the region, the collection advances the broader field of writing studies beyond national boundaries. Contributors include Tyrone Ali, Annife Campbell, Tresecka Campbell, Dawes Valerie, Combie, Jacob Dyer, Spiegel, Brianne Jaquette, Carmeneta Jones, Clover Jones, McKenzie, Beverley Josephs, Christine E. Kozikowski, Vivette Milson Whyte, Kendra L. Mitchell, Raymond Oenbring, Heather M. Robinson, Daidrah Smith and Michelle Stewart McKoy.
