D. Incorrect

A. The student knew the order of operations correctly.

B. The student knew the order of operations correctly.

13. A. The student knew that the greatest common factor

B. The student knew the product of the two numbers was 100, so the greatest common factor was 10.

C. The student knew that the greatest common factor

D. Incorrect

14. **Correct:** The student demonstrates a thorough understanding of multiplying and finding equal numbers and whole numbers. The student explains the length of the hallway is 100 blocks, and the width is 10 blocks, so the length is 10 times as long as the width. The student shows a visual representation of the hallway and the width, and explains the length is 10 times as long as the width.

**Correct:** The student demonstrates a thorough understanding of multiplying and finding equal numbers and whole numbers. The student shows a visual representation of the hallway and the width, and explains the length is 10 times as long as the width.

**Correct:** The student demonstrates a partial understanding of multiplying and finding equal numbers and whole numbers. The student shows a visual representation of the hallway and the width, and explains the length is 10 times as long as the width.
