Education and Caste in India Ghanshyam Shah, Kanak Kanti Bagchi, Vishwanatha Kalaiah, 2020-06-04. Seven decades since Indian Independence, education takes the centre stage in every major discussion on development, especially when we talk about social exclusion, Dalits, and reservations today. This book examines social inclusion in the education sector in India for Scheduled Castes (SCs). The volume foregrounds the historical struggles of the SCs to understand why the quest for education is so central to shaping SC consciousness and aspirations. Works with exhaustive state-level studies with a view to assessing commonalities and differences in the educational status of SCs today. Takes stock of the policymaking and extent of implementations across Indian states to understand the challenges faced in different scenarios. Seeks to analyse the differential in existing economic conditions and other structural constraints in relation to access to quality educational facilities. Examines the social perceptions and experiences of SC students as they live now. A major study, the volume will be of great interest to scholars and researchers of education, sociology, and social anthropology, development studies, and South Asian studies.
