Smith, 2016-01-04

The past thirty years have seen a rapid expansion of testing exposing students worldwide to tests that are now more than ever standardized and linked to high stakes outcomes The use of testing as a policy tool has been legitimized within international educational development to measure education quality in the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences Oswaal CBSE LMP Last Minute Preparation System and 20 Combined Sample Question Papers Class 12 Commerce Stream ( Accountancy, Business Studies, Economics, Mathematics, English Core) (Set of 2 Books) With Board Additional Practice Questions For 2024 Board Exams #WinTheBoards Oswaal Editorial Board, 2023-11-27 Description of the Product Board Additional Practice Papers Set 1 2 Released on 8th September and 8th November 2023 these are your secret weapons for rigorous exam practice Chapter wise Topic wise Revision Notes Bridge those learning gaps by recalling the most crucial topic details Mind Maps and Mnemonics Simplify complex concepts for crisp recall visualize and memorize with ease Concept Videos Reinforce your understanding with visual aids one last time
