

## QUICK SETUP GUIDE

### VERIFY BOX CONTENTS

- A G-CONNECT
- B USB 3.0 Cable
- C Power Adapter
- D Power Cable

For any questions about the G-CONNECT, please visit our online support at: <http://www.g-technology.com/support>

©2011 G-Technology Inc. All rights reserved. G-Technology is a registered trademark of G-Technology Inc. in the United States and other countries. G-CONNECT is a registered trademark of G-Technology Inc. in the United States and other countries. All other trademarks are the property of their respective owners.

## 1 HARDWARE SETUP

Turn on the G-CONNECT by pressing the Power Button. The Status and POWERD status indicators light up. The Status light will continue to flash for a few moments indicating that your device is powering up.

## 3 SETUP YOUR DEVICE

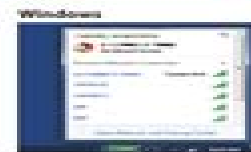

- 1 **Wireless Network (SSID) Name**  
Just like connecting to the Internet through a wireless home router, the Wireless Network (SSID) name is used to identify your G-CONNECT. The default name is "G-CONNECT" but it is recommended that you enter a name that is more meaningful to you.
  - 2 **Admin Account**  
The Admin is typically the owner of the G-CONNECT and can manage all of the content found on the device. This password is different from the Wi-Fi password because it allows access to both the private and public content on the device.
- Finishing the setup**  
Once you've entered your information, click on the "Submit" button to complete setup. You can now begin using G-CONNECT by entering <http://www.g-technology.com> into your preferred web browser and logging in using either the Guest or Admin account credentials.

## 2 CONNECT TO THE WIRELESS NETWORK

Go to the Wireless Network Connection icon on your personal computer and view your available Wireless Networks. Find the network named "G-CONNECT" and connect to it.

**Note:** We do not have a password for the name G-CONNECT as the first few nights of your device's operation are password-free, whereas in a network that is password-protected.

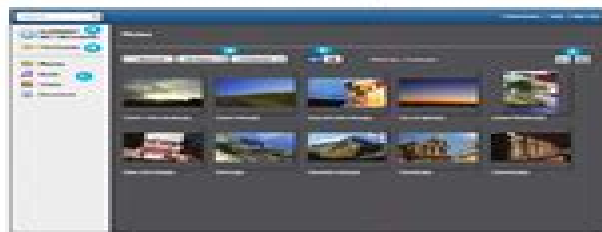

Once you are connected to the G-CONNECT wireless network, open a new browser window and type in <http://www.g-technology.com> to go to the G-CONNECT Webpage page. Click on the link that says "Click Here to begin" to visit other setup pages.

### CONNECTING TO THE INTERNET

You can also use your G-CONNECT device as a Wi-Fi hotspot to connect the Internet. Just plug an Ethernet cable from your home router into the G-CONNECT device and you're in business to begin surfing the web.

## 4 WELCOME TO G-CONNECT

- A Available Capacity
- B Display and manage content by folder
- C Display content by type
- D Sort content by date created
- E Show Thumbnail or List view
- F Perform operations on selected items (Play/View/Share/Delete/Download)

Now that the G-CONNECT has been successfully setup, you can add content in a variety of ways. The recommended way to add content to the device is by using the included USB 3.0 Cable. For alternate ways to add content, visit <http://www.g-technology.com/support>

### Transferring files using the USB 3.0 Cable

- Power off the G-CONNECT by pressing the power button found on the device until the LED's begin flashing. When the LED's turn off, it is safe to disconnect the power adapter and using the USB 3.0 Cable provided to you with the box contents. Plug the two identical ends of the 3.0 Cable into your personal computer and the other into your G-CONNECT.
- Your G-CONNECT should now appear as a drive on the desktop if using a Mac and in "My Computer" if using Windows.
- Open Finder on your Mac or Windows Explorer on PC and find the G-CONNECT icon. Drag and drop files from your personal computer into the default folder type on the G-CONNECT. It is recommended, but not required that you use either the Admin or Public folder.
- Files added into the top level folders are private and only visible to users who log in using the Admin account. Files added under the Public folder are accessible by all users that log into the G-CONNECT using the Guest permission.
- Once you have added your content to the device, you can safely remove the G-CONNECT from your Personal Computer and reconnect it to the power supply for Wi-Fi usage.

### Using the G-CONNECT

The G-CONNECT features a built-in application that functions like a typical website. To access this application from your Personal Computer, open your default web browser and go to <http://www.g-technology.com> and log in using either the Admin or Guest account permission.

### Getting the free iPad app

Download the free iPad app from the Apple App Store using your mobile device. Use the G-CONNECT app to wirelessly connect and stream content.

Please visit our online technical support for more information about using the iPad app.
