External Badge Readers

For large, dispersed work environments, you can improve employee productivity with external badge readers. Whether you'd like to minimize employee walk time, automate door opening (in conjunction with a universal relay), control terminal traffic, or provide multiple locations for employees to punch in and out, external badge readers allow employees to easily access their work areas. You can choose between bar code readers, which allow badges to slide easily through the reader slot, and proximity readers, which offer increased speed and convenience.

The readers work with your corporate proximity badges and can be configured to perform a single standard transaction. The Kronos 4500 terminal supports external badge readers supplied by Kronos. The two Kronos external readers consist of the HID ProxPro Reader kit and the HID MiniProx Reader kit.

External Readerless Kit

This kit allows you to operate HID readers used with Series 400 terminals or non-HID proximity readers from third-party vendors with the Kronos 4500 terminal. The kit is also used if you need to connect HID ProxPro or MiniProx readers, as well as contactless NFARE and iCLASS smart card readers, to a Kronos 4500 terminal.
