nationally and internationally and cover key aspects of the Government's social economic and environmental policy. Large sums of public money are devoted to the programmes designed to deliver them. This NAO report contains the detailed results of its examination of the data systems used by six government departments to monitor and report progress against their 2005-08 PSA targets covering a total of 65 data systems. The six Departments are the Cabinet Office, the Department for Culture, Media and Sport, the Department for Education and Skills, the Department for the Environment, Food and Rural Affairs, the Ministry of Defence and HM Treasury. Findings include that 75 per cent of the data systems used are broadly appropriate but less than half of these were fully fit for purpose. Most required some action to strengthen measurement or reporting arrangements. A companion volume HCP 127 I session 2006-07 ISBN 0102944040 is available separately which contains the NAO's summarised findings.

How to Teach Non-Fiction Writing at Key Stage 3 Paul Evans, 2013-01-11. How to Teach Non-Fiction Writing at Key Stage 3 is a practical manual to help teachers of 11-14 year olds to focus on key aspects of developing their pupils' non-fiction writing. The book presents a clear teaching sequence that emphasizes the link between reading and writing and can raise pupils' attainment levels in both areas. Practical writing workshops focus on the six main types of non-fiction as defined in the NLS Framework for Year 7: information, recount, explanation, instruction, persuasion and discussion texts. Each workshop includes photocopiable sample texts, instructions for teachers and tasks for pupils to complete. With advice on how to make best use of a writing journal and how to progress in sentence construction, how to make sentences more flexible and better adapted to purpose, the book is a practical and immediately useful resource for KS3 teachers.

KS3 Maths, Age 11-14 Collins UK, Letts KS3 Staff, 2014-06-16. These practice test papers are matched to the new programme of study for KS3 Maths. They are designed to provide realistic test practice featuring a wide range of questions styles that will thoroughly test the student's grasp of all the key concepts and skills.

Leadership for Change and School Reform Kathryn Riley, Karen Seashore Louis, 2013-01-11. School reform is a top priority for governments today. This timely and challenging book edited by leading international researchers Kathryn Riley and Karen Seashore Louis offers a rich comparative perspective on leadership for change and school reform. Contributors from North America, Europe and Australia demonstrate how school leadership is influenced by global pressures, differing national and state contexts and local concerns. They illustrate the limitations of reform initiatives which focus on school leaders to the exclusion of the many other organisations which affect schools such as national and local governments, professional associations and school communities. This book raises some important questions such as: How can school leaders create intelligent thinking schools? How can leadership and learning be linked together? What are the characteristics of effective local education authorities and school districts? What is the role of teacher organisations in educational reform and change? What happens if businesses, teachers, parents and local communities have different views of what makes a good school? The text illustrates the ways in which leadership is rooted in learning and identifies new directions for school leadership. It challenges conventional notions of

leadership offering an expanded view which sees leadership just as an individual role based function but as a network of relationships among people structures and cultures This lively and provocative book should be read by all those interested in education reform
