Connections Andrew N. Wegmann, Robert Englebert, 2020-11-04 French Connections examines how the movement of people
ideas and social practices contributed to the complex processes and negotiations involved in being and becoming French in
North America and the Atlantic World between the years 1600 and 1875 Engaging a wide range of topics from religious and
diplomatic performance to labor migration racialization and both imagined and real conceptualizations of Frenchness and
Frenchification this volume argues that cultural mobility was fundamental to the development of French colonial societies
and the collective identities they housed Cases of cultural formation and dislocation in places as diverse as Quebec the
Illinois Country Detroit Haiti Acadia New England and France itself demonstrate the broad variability of French cultural
mobility that took place throughout this massive geographical space Nevertheless these communities shared the same
cultural root in the midst of socially and politically fluid landscapes where cultural mobility came to define and indeed sustain
communal and individual identities in French North America and the Atlantic World Drawing on innovative new scholarship
on Louisiana and New Orleans the editors and contributors to French Connections look to refocus the conversation
surrounding French colonial interconnectivity by thinking about mobility as a constitutive condition of culture from this
perspective separate spheres of French colonial culture merge to reveal a broader more cohesive cultural world The
comprehensive scope of this collection will attract scholars of French North America early American history Atlantic World
history Caribbean studies Canadian studies and frontier studies With essays from established award winning scholars such as
Brett Rushforth Leslie Choquette Jay Gitlin and Christopher Hodson as well as from new progressive thinkers such as Mairi
Cowan William Brown Karen L Marrero and Robert D Taber French Connections promises to generate interest and value
across an extensive and diverse range of concentrations **The Rites of Labor** Cynthia Maria Truant, 1994 The Rites of
Labor is the only full account of the brotherhoods of compagnonnage secret associations of French journeymen formed in the
late medieval era and surviving into the nineteenth century In this major contribution to French social history and the
anthropology of work culture Truant re creates the compagnons economic activities their often violent clashes with one
another and the myths and rituals that sustained their bonds , **Le compagnon du tour de France** , 1900
Heritage Regimes and the State Bendix, Regina, Eggert, Aditya, Peselmann, Arnika, 2013-07-02 What happens when
UNESCO heritage conventions are ratified by a state How do UNESCO s global efforts interact with preexisting local

regional and state efforts to conserve or promote culture What new institutions emerge to address the mandate The contributors to this volume focus on the work of translation and interpretation that ensues once heritage conventions are ratified and implemented With seventeen case studies from Europe Africa the Caribbean and China the volume provides comparative evidence for the divergent heritage regimes generated in states that differ in history and political organization The cases illustrate how UNESCO's aspiration to honor and celebrate cultural diversity diversifies itself The very effort to adopt a global heritage regime forces myriad adaptations to particular state and interstate modalities of building and managing heritage

Balzac on the Barricades Rebecca Terese Powers, 2024-08-13 The role of nineteenth century French literature in a distinctively modern political movement When Parisian workers took to the streets in February 1848 they adopted the rallying cry of *droit au travail* the right to work That protesters increasingly framed employment as a political right represented a radical and modern development But where had this idea originated In her examination of this cause *l'histoire de France's* Second Republic Rebecca Powers shows that the redefinition of labor as a basic right sprang not only from political debates but also directly from contemporary literature Powers charts the rise of this revolutionary concept through the tales of bourgeois dominance in the novels and newspaper articles of Honoré de Balzac As Powers explains this realist semiotician of French provincial and urban life par excellence was the first to attempt a definition of modern labor as an integral part of the emerging modern society Powers makes clear how recognizing Balzac's influence on mid nineteenth century political discourse is essential to understanding the course of events in that earth shaking year

The Romantic Machine John Tresch, 2012-02-06 In the years immediately following Napoleon s defeat French thinkers in all fields set their minds to the problem of how to recover from the long upheavals that had been set into motion by the French Revolution Many challenged the Enlightenment s emphasis on mechanics and questioned the rising power of machines seeking a return to the organic unity of an earlier age and triggering the artistic and philosophical movement of romanticism Previous scholars have viewed romanticism and industrialization in opposition but in this groundbreaking volume John Tresch reveals how thoroughly entwined science and the arts were in early nineteenth century France and how they worked together to unite a fractured society Focusing on a set of celebrated technologies including steam engines electromagnetic and geophysical instruments early photography and mass scale printing Tresch looks at how new conceptions of energy instrumentality and association fueled such diverse developments as fantastic literature popular astronomy grand opera positivism utopian socialism and the Revolution of 1848 He shows that those who attempted to fuse organicism and mechanism in various ways including Alexander von Humboldt and Auguste Comte charted a road not taken that resonates today Essential reading for historians of science intellectual and cultural historians of Europe and literary and art historians *The Romantic Machine* is poised to profoundly alter our understanding of the scientific and cultural landscape of the early nineteenth century

Frenchmen into Peasants Leslie CHOQUETTE, Leslie Choquette, 2009-06-30 In considering the pattern of emigration in the context of migration history Choquette shows that in many ways the movement toward Canada occurred as a by product of other perennial movements such as the rural exodus or interurban labor migrations Overall emigrants to Canada belonged to an outwardly turned and mobile sector of French society and their migration took place during a phase of vigorous Atlantic expansion They crossed

the ocean to establish a subsistence economy and peasant society traces of which lingered on into the twentieth century
