### **The Power of Genre**

Adena Rosmarin, 1985 *The Power of Genre* was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions *The Power of Genre* is a radical and systematic rethinking of the relationship between literary genre and critical explanation Adena Rosmarin shows how traditional theories of genre whether called historical intrinsic or theoretical are necessarily undone by their attempts to define genre representationally Rather Rosmarin argues the opening premise of critical argument is always critical purpose or as E H Gombrich has said function and the genre or form follows the reform The goal is a relational model that works Rosemarin analyzes existing theories of genre those of Hirsch Crane Frye Todorov Jaus and Rader are given particular attention before proposing her own These analyses uncover the illogic that plagues even sophisticated attempts to treat genre as a preexistent entity Rosmarin shows how defining genre pragmatically as explicitly chosen or devised to serve explicitly critical purposes solves this problem a pragmatic theory of genre builds analysis of its metaphors and motives into its program thereby eliminating theory's traditional need to deny the invented and rhetorical nature of its schemes A pragmatic theory however must be tested not only by its internal cohesion but also by its power to enable practice and Rosmarin chooses the dramatic monologue an infamously problematic genre and its recent relative the mask lyric as testing grounds Both genres variously exemplified by poems of Browning Thennyson Eliot and Pound are ex post facto critical constructs that when defined as such make closely reasoned sense not only of particular poems but also of

their perplexed interpretive histories Moreover both genres dwell on the historicity textuality and redemptive imperfection of the speaking self This generic obsession ties the poems to their reception and finally to the opened processes of hermeneutic question and answer stressed in Rosmarin s framing theory

**Modern Genre Theory** David Duff,2014-09-11 Since Aristotle genre has been one of the fundamental concepts of literary theory and much of the world s literature and criticism has been shaped by ideas about the nature function and value of literary genres Modern developments in critical theory however prompted in part by the iconoclastic practices of modern writers and the emergence of new media such as film and television have put in question traditional categories and challenged the assumptions on which earlier genre theory was based This has led not just to a reinterpretation of individual genres and the development of new classifications but also to a radically new understanding of such key topics as the mixing and evolution of genres generic hierarchies and genre systems the politics and sociology of genres and the relations between genre and gender This anthology the first of its kind in English charts these fascinating developments Through judicious selections from major twentieth century genre theorists including Yury Tynyanov Vladimir Propp Mikhail Bakhtin Hans Robert Jauss Rosalie Colie Fredric Jameson Tzvetan Todorov Gerard Genette and Jacques Derrida it demonstrates the central role that notions of genre have played in Russian Formalism structuralism and post structuralism reception theory and various modes of historical criticism Each essay is accompanied by a detailed headnote and the volume opens with a lucid introduction emphasising the international and interdisciplinary character of modern debates about genre Also included are an annotated bibliography and a glossary of key terms making this an indispensable resource for students and anyone interested in genre studies or literary theory
