Myp Exponential And Logarithmic Functions Unit Plan:

Exponential and Logarithmic Functions Joshua Graff, 2017 This curriculum projects covers both logarithmic and exponential functions There is a strong emphasis on applying logarithmic and exponential functions and not just rote memorization of rules to solve meaningless equations While there is some solving of equations without a context they are typically done in a more fun game like activity rather than the same old problem types that have been in textbooks for decades Whenever possible the functions are placed inside of a meaningful context where students can actually see the usefulness of logarithms and exponentials so that they will buy into the idea of truly learning them This unit was designed with the thought of student buy in at the forefront of everything
