

Gary Soto's short story, "The No-Guitar Blues," tells about a boy trying to collect enough money to buy a guitar. The response essay below analyzes the story's plot and character development to reveal the main theme.

### **Beginning**

The beginning names the story and author and focuses on the theme (underlined).

### **Fausto's Guilt**

In Gary Soto's short story, "The No-Guitar Blues," the main character, a teenage boy named Fausto, takes advantage of some rich folks. As a result, he is consumed by guilt. The story shows that deep down, people want to do the right thing.

The story begins with Fausto wanting to play guitar in his own band. He wonders how he can get a guitar. Soto uses idioms to illustrate that Fausto's family does not have a lot of money. For example, Fausto worries that if he asks for a guitar, his parents will say, "Money doesn't grow on trees," or "What do you think we are, bankers?" (56). When he does ask for a guitar, his mother replies, "Honey, a guitar costs a lot of money . . . but we'll see" (57).

But Fausto is determined. He hops on a bike and rides north, away from his home near the vacant lot on Olive Street. In the nicer section of Fresno, he goes door-to-door searching for work, hoping to be paid enough to buy a guitar. The author says that Fausto only earns a "grimy, dirt-caked quarter" (58) and one juicy orange. Little does Fausto know that this orange will lead him straight into a lie.

As Fausto sits eating the orange, a sad-eyed dog comes along. Fausto begins feeding it orange slices. Fausto has an idea: "At that moment, a light came on inside Fausto's head" (59). He notices that the dog looks healthy and well fed. He spots a collar and tag, and he realizes that "Roger" probably belongs to rich people. The address is only six blocks away. This is when Fausto decides to tell a lie. He will say that he found Roger near the freeway, and maybe the owners will give him a reward big enough to buy a guitar.

Fausto feels guilty at the thought of lying. The guilt steadily builds. It increases as he stands on the porch knocking on the door. It gets worse as the man and woman

**Teaching ELLs Across Content Areas** Nan Li,2016-04-01 The book Teaching ELLs Across Content Areas Issues and Strategies is a unique useful text written for K 12 teachers This book is the culmination of the professional knowledge expertise and experience from the distinguished authors who represent the entire range of the content areas including language arts science mathematics technology arts psychology and Hispanic studies The ELL school population has reached 5.3 million with the increase rate of 51 percent from School Year 1998 1999 to 2008 2009 NCELA 2012 By 2025 one out of four K 12 students will be ELLs NEA Policy Brief 2013 The NEA data states that the ELLs are the fastest growing student population group in our schools and providing them with high quality services and programs is an important investment in America s future NEA Policy Brief 2013 With the fast growth of the ELLs in schools basic information and strategies are needed by all K 12 teachers This book provides useful information and strategies for all K 12 teachers in content classrooms This book has three significances First the book provides the most needed information for K 12 teachers

with issues and strategies that are important in content areas to help ELLs succeed. With the fast growth of the ELLs in schools K-12 teachers need this information in content classrooms. Second, the book fills the gap related to teaching ELLs in content areas. There are some existing books with titles on teaching ELLs across content areas, yet these books provide general information with fewer books that really address specific content topics. This book is unique because it has the dedicated chapters for specific content areas, e.g., Language Arts, Science, Math, Social Studies, with issues and strategies in these respective contents, as well as general information, e.g., L2 theories for teachers to know and work with ELLs. Third, the book is reader-friendly with carefully crafted chapters. Each chapter begins with a scenario to catch the reader's attention, is followed by issues and strategies, and ends with a summary. A scenario begins with each chapter for teachers to get to know the ELLs with the content that focuses on the related information and teaching strategies. With the continued increase in the ELL school population, this book is intended to help all K-12 teachers in content areas have knowledge and strategies to better serve their ELLs.

*Resources in Education*, 1997-10. *Multilingual Learners and Academic Literacies* Daniella Molle, Edynn Sato, Timothy Boals, Carol A. Hedgspeth, 2015-03-05. Shifting the discourse from a focus on academic language to the more dynamic but less researched construct of academic literacies, this volume addresses three key questions: What constitutes academic literacy? What does academic literacy development in adolescent multilingual students look like, and how can this development be assessed? What classroom contexts foster the development of academic literacies in multilingual adolescents? The contributing authors provide divergent definitions of academic literacies and use dissimilar theoretical and methodological approaches to study literacy development. Nevertheless, all chapters reflect a shared conceptual framework for examining academic literacies as situated, overlapping, meaning-making practices. This framework foregrounds students' participation in valued disciplinary literacy practices. Emphasized in the new college and career readiness standards, the notion of disciplinary practices allows the contributing authors to bridge the language-content dichotomy and take a more holistic, as well as nuanced, view of the demands that multilingual students face in general education classrooms. The volume

also explores the implications of the emphasis on academic literacy practices for classroom instruction research and policy
