

Marking Criteria for Question 1

A CONTENT (EXTENDED TIER)

Use the following table to give a mark out of 15.

Band 1: 13–15	The response reveals a thorough reading of the passage. A wide range of ideas is applied. There is sustained use of supporting detail, which is well integrated into the response, contributing to a strong sense of purpose and approach. Developed ideas are well related to the passage. All three bullets are well covered. A consistent and recognisable voice for Rosemarie is created.
Band 2: 10–12	There is evidence of a competent reading of the passage. Some ideas are developed, but the ability to sustain content may not be consistent. There is frequent supporting detail. The response answers all three bullets, though perhaps not equally well. An appropriate voice is used.
Band 3: 7–9	The passage has been read reasonably well , but the response may not reflect the range or complexity of ideas in the original. There may be some mechanical use of the passage. Supporting detail is used occasionally. Opportunities for development are rarely taken and ideas are simply expressed. There is uneven focus on the bullets. The voice is plain or lacks enthusiasm.
Band 4: 4–6	Some brief, straightforward reference to the passage is made. There is some evidence of general understanding of the main ideas, although the response may be thin or in places lack focus on the passage or the question. One of the bullets may not be addressed. The voice is not sustained or appropriate.
Band 5: 1–3	The response is either very general, with little reference to the passage, or a reproduction of sections of the original. Content is insubstantial, or there is little realisation of the need to modify material from the passage.
Band 6: 0	There is little or no relevance to the question or to the passage.

Groenke,J. Amos Hatch,2009-07-30 Susan L Groenke and J Amos Hatch It does not feel safe to be critical in university based teacher education programs right now especially if you are junior faculty In the neoliberal era critical teacher education research gets less and less funding and professors can be denied tenure or lose their jobs for speaking out against the status quo Also we know that the pedagogies critical teacher educators espouse can get beginning K 12 teachers fired or shuffled around especially if their students test scores are low This paired with the resistance many of the future teachers who come through our programs predominantly White middle class and happy with the current state of affairs show toward critical pedagogy makes it seem a whole lot easier less risky even smart not to do critical pedagogy at all Why bother

We believe this book shows we have lots of reasons to bother with critical pedagogy in teacher education as current educational policies and the neoliberal discourses that vie for the identities of our own local contexts increasingly do not have education for the public good in mind This book shows teacher educators taking risks seeking out what political theorist James Scott has called the small openings for resistance in the contexts that mark teacher education in the early twenty first century
