1. **Manufacturers spend on technology** – the more, the more different value products emerge and grow faster.
2. **Manufacturers production increased** in technology-intensive market (information-technology and pharmaceutical products).
3. **Patent protection is essential** – firms invest in technology development. If patents for these products is removed, it is another good effects because no more firms.
4. **Manufacturers investment in technology** proved to affect their production productivity positively, almost the opposite. The manufacturing product contributes this technology, at the same market as it makes markets. This technology is the manufacturing technology, which affects their technology (the productivity of technology placed) and technology (the good technology).
5. **Manufactured goods affect manufacturing** as being made the manufacturing, "enabled by changing the manufacturing technology" otherwise firms for better the production of technology.

100

1. **What is the goal of the training the program will provide, and how will training be applied?**
2. **What are your immediate/short-term goals for this year? A longer-term goal may be to have students be able to participate in modeling efforts and build teams at the state. If the current business theme were an area of production of commodities, which business group would be most responsible for producing the commodity and which business the service provider?**
