Geography Memo 2014 November:

Origination Andy Pike, 2015-06-02 *Origination The Geographies of Brands and Branding* offers innovative theoretical and conceptual frameworks relating to the ways that actors create meaning and value in commodity brands and branding through processes of geographical association Provides innovative conceptualization and theorization to facilitate an understanding of the geographical dimensions of brands and branding Challenges current interpretations of brands as vehicles of homogenization in globalization Establishes the theoretical and conceptual foundations of a more geographically sensitive approach through rigorous empirical examination of the under researched geographical differentiation of commodity brands and branding Presents innovative new research and analysis of the socio spatial biographies of the Newcastle Brown Ale Burberry and Apple brands Forges strong new connections between political and cultural economy approaches within geography Provides a distinctive and incisive conceptual and theoretical framework capable of engaging other branded commodities and their branding in other times and places **The Meritocracy Trap** Daniel

Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people *Sanctuary and Asylum* Linda Rabben, 2016-09-01 The practice of sanctuary giving refuge to the threatened vulnerable stranger may be universal among humans From primate populations to ancient religious traditions to the modern legal institution of asylum anthropologist Linda Rabben explores the long history of sanctuary and analyzes modern asylum policies in North America Europe and elsewhere contrasting them with the role that

courageous individuals and organizations have played in offering refuge to survivors of torture persecution and discrimination Rabben gives close attention to the mid 2010s refugee crisis in Europe and to Central Americans seeking asylum in the United States This wide ranging timely and carefully documented account draws on Rabben s experiences as a human rights advocate as well as her training as an anthropologist Sanctuary and Asylum will help citizens professionals and policy makers take informed and compassionate action A Capell Family Book Propaganda and Ideology in the Russian-Ukrainian War Jon Roozenbeek,2024-05-23 The first analysis and history of Russian propaganda in Ukraine how it works and its key weaknesses Minerals Yearbook Mines Bureau,Geological Survey,Interior Department,2018-04-19 The region of Europe and Central Eurasia defined in this volume encompasses territory that extends from the Atlantic Coast of Europe to the Pacific Coast of the Russian Federation It includes the British Isles Iceland and Greenland a self governing part of the Kingdom of Denmark Included are mineral commodity outlook tables plus global overview research for particularly commodities within a specific regions countries are presented throughout the text Manufacturers of these metals and commodities along with trade brokers that may specialize in imports and exports political scientists and economists may also be interested in this volume Students pursuing research on specific metals and mineral commodities for world economy courses may be interested in this volume Minerals Yearbook Mines Bureau,Geological Survey,Interior Department,2018-04-19 The region of Europe and Central Eurasia defined in this volume encompasses territory that extends from the Atlantic Coast of Europe to the Pacific Coast of the Russian Federation It includes the British Isles Iceland and Greenland a self governing part of the Kingdom of Denmark Included are mineral commodity outlook tables plus global overview research for particularly commodities within a specific regions countries are presented throughout the text Manufacturers of these metals and commodities along with trade brokers that may specialize in imports and exports political scientists and economists may also be interested in this volume Students pursuing research on specific metals and mineral commodities for world economy courses may be interested in this volume Geographies of Mobility Mei-Po Kwan,Tim Schwanen,2018-10-11 This book seeks to bring together different philosophical theoretical and methodological approaches to the study of human mobility within the discipline of geography With five thematic sections conceptualizing and analyzing mobility inequalities of mobility politics of mobility decentering mobility and qualifying abstraction and 27 substantive chapters by leading researchers in the field it provides a comprehensive overview of the latest thinking about human mobility and related issues The contributors discuss mobility issues as diverse as everyday mobilities of young people migrants and refugees and sex workers the relationships between citizenship and mobility and the potential and pitfalls of big data for understanding mobility This coupled with a broad international focus means that Geographies of Mobility will not only encourage and enrich dialogue on a theme that is of major importance to varied geographic research communities but will also be of great interest to students and researchers across the wider social sciences This book was originally published as a

special issue of Annals of the American Association of Geographers *Deepening Neoliberalism, Austerity, and Crisis* Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland's crisis resolution The Problem of Social Inequality Scott G. McNall, 2015-12-07 Within and among nations rising levels of social inequality threaten our collective future Currently upwards of 80% of people's life chances are determined by factors over which they have absolutely no control Social inequality threatens the democratic project because it destroys the trust on which governments depend and it gives rise to corrupt political and economic institutions How can we get out of the traps we have created for ourselves We need to reboot capitalism Drawing on diverse examples from a range of countries McNall explains the social economic and ecological traps we have set for ourselves and develops a set of rules of resilience that are necessary conditions for the creation and maintenance of democratic societies and a set of rules essential for creating a sustainable future Handbook on Wealth and the Super-Rich Iain Hay, Jonathan V Beaverstock, 2016-01-29 Fewer than 100 people own and control more wealth than 50 per cent of the world's population The Handbook on Wealth and the Super Rich is a landmark multidisciplinary evaluation of both the lives and lifestyles of the super rich as well as the processes that underpin super wealth generation and its unequal distribution Drawing on international case studies leading experts from across the social sciences offer 22 accessible and coherently organized chapters which critically analyse a range of topics including the legitimacy of extreme wealth from a moral economic perspective biographies of illicit super wealth London's housing markets how the very wealthy fly the environmental consequences of super rich lives crafting immigration policies to attract the rich Students and scholars studying a host of topics such as development studies economics geography history political science and sociology will find this book eminently engaging It will also be of great interest to public commentators charitable organizations and NGOs concerned with wealth and income distributions *Migrant Protection and the City in the Americas* Laurent Faret, Hilary Sanders, 2021-07-30 This book aims to establish a dialogue around the various urban sanctuary policies and other formal or informal practices of hospitality toward migrants that have emerged or been strengthened in cities in the Americas in the last decade The authors articulate local governance initiatives in migrant protection with a larger range of social and political actors and places them within a broader context of migrations in the Western Hemisphere including case studies of Toronto New York Austin Mexico City and Lima among others The book analyzes in particular the limits of local efforts to protect migrants and to identify the latitude of action at the disposal of local actors It examines the efforts of municipal governments and also considers the role taken by cities from a larger perspective including the actions of immigrant rights associations churches NGOs and other actors in protecting vulnerable migrants *Healthy, Resilient, and Sustainable Communities After Disasters* Institute of Medicine, Board on Health Sciences Policy, Committee on Post-Disaster

Recovery of a Community's Public Health, Medical, and Social Services,2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges Healthy Resilient and Sustainable Communities After Disasters identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in Healthy Resilient and Sustainable Communities After Disasters lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery Healthy Resilient and Sustainable Communities After Disasters calls for actions at multiple levels to facilitate recovery strategies that optimize community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in a communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities

preparation Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations Suspension of Human Rights CHAPTER 4 Borders Exception and Sovereignty Australia s Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System Developing a Conceptual Perspective by Rebecca Mavin CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands Wellbeing and Health by Anna de Haan Yodit Jacob Trudy Mooren and Winta Ghebreab PART C Migrants Strategies and Identities CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou CHAPTER 9 Urban Resistances and Migrant Activism Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas CHAPTER 10 RefConnect A Mobile Social Network for Refugees by Evdokia Kogia Styliani Liberopoulou Nikolaos Alamanos Vasilis Pierros and Christos Michalakelis CHAPTER 11 Halo Halo Nostalgia and Navigating Life for Overseas Filipino

Workers OFW s in the Kingdom of Saudi Arabia by Simeon S Magliveras **Legal Phantoms** Susan Bibler Coutin, Jennifer M. Chacón, Stephen Lee, 2024-01-30 The 2012 Deferred Action for Childhood Arrivals DACA program was supposed to be a stepping stone a policy innovation announced by the White House designed to put pressure on Congress for a broader lasting set of legislative changes Those changes never materialized and the people who hoped to benefit from them have been forced to navigate a tense and contradictory policy landscape ever since haunted by these unfulfilled promises Legal Phantoms tells their story After Congress failed to pass a comprehensive immigration bill in 2013 President Obama pivoted in 2014 to supplementing DACA with a deferred action program known as DAPA for the parents of citizens and lawful permanent residents and a DACA expansion DACA in 2014 But challenges from Republican led states prevented even these programs from going into effect Interviews with would be applicants immigrant rights advocates and government officials reveal how such failed immigration reform efforts continue to affect not only those who had hoped to benefit but their families communities and the country in which they have made an uneasy home Out of the ashes of these lost dreams though people find their own paths forward through uncharted legal territory with creativity and resistance **HC 369 - Devolution: The Next Five Years and Beyond** Great Britain. Parliament. House of Commons. Communities and Local Government Committee, 2016 The Government has announced a devolution revolution transferring powers and opportunities to local government through a series of devolution deals The Cities and Local Government Devolution Bill gives statutory authority to deals and enables some of the specific reforms the Government wishes to make such as introducing directly elected mayors for combined authorities This inquiry set out to examine the contents of the Bill and in particular whether Greater Manchester s deal is a model for other areas but its scope quickly widened to a review of the way in which devolution in England is proceeding The Committee has identified various aspects of the current approach that it recommends are refined and improved The Committee has found a significant lack of public consultation and engagement at all stages in the devolution process The public should be engaged in the preparation of devolution proposals insofar as possible during the negotiations and once the results of a deal have begun to make an impact and communicated to throughout the process This is particularly the case for health devolution where the systems in place are complex changes are consequently more difficult to understand and the public s response is likely to be more emotional The Committee also believes that the Government s approach to devolution in practice has lacked rigour as to process there are no clear measurable objectives for devolution It suggests various ways in which proper process can be ensured *Life in the Age of Drone Warfare* Lisa Parks, Caren Kaplan, 2017-10-19 This volume s contributors offer a new critical language through which to explore and assess the historical juridical geopolitical and cultural dimensions of drone technology and warfare They show how drones generate particular ways of visualizing the spaces and targets of war while acting as tools to exercise state power Essays include discussions of the legal justifications of extrajudicial killings and how US drone strikes in the Horn of Africa impact life on the

ground as well as a personal narrative of a former drone operator The contributors also explore drone warfare in relation to sovereignty governance and social difference provide accounts of the relationships between drone technologies and modes of perception and mediation and theorize drones relation to biopolitics robotics automation and art Interdisciplinary and timely Life in the Age of Drone Warfare extends the critical study of drones while expanding the public discussion of one of our era s most ubiquitous instruments of war Contributors Peter Asaro Brandon Wayne Bryant Katherine Chandler Jordan Crandall Ricardo Dominguez Derek Gregory Inderpal Grewal Lisa Hajjar Caren Kaplan Andrea Miller Anjali Nath Jeremy Packer Lisa Parks Joshua Reeves Thomas Stubblefield Madiha Tahir

The Politics of Immigration Tom K. Wong, 2017 Immigration has been deeply woven into the fabric of American nation building since the founding of the Republic Indeed immigrants have played an integral role in American history but they are also intricately tied to America s present and will feature prominently in America s future Immigration can shape a nation Consequently immigration policy can maintain replenish and even reshape it Immigration policy debates are thus seldom just about who to let in and how many as a nation s immigration policies can define its identity This is what helps breathe fire into the politics of immigration Against this backdrop political parties promote their own narratives about what the immigration policies of a nation of immigrants should be while undermining the contrasting narratives of political opponents Racial and ethnic groups mobilize for political inclusion as immigration increases their numbers but are often confronted by the counteractive mobilization of nativist groups Legislators calibrate their positions on immigration by weighing traditional electoral concerns against a new demographic normal that is reshaping the American electorate At stake are not just what our immigration policies will be but also what America can become What are the determinants of immigration policymaking in the United States The Politics of Immigration focuses the analytical lens on the electoral incentives that legislators in Congress have to support or oppose immigration policy reforms at the federal level In contrast to previous arguments Tom K Wong argues that contemporary immigration politics in the United States can be characterized by three underlying features the entrenchment of partisan divides among legislators on the issue of immigration the political implications of the demographic changes that are reshaping the American electorate and how these changes are creating new opportunities to define what it means to be an American in a period of unprecedented national origins racial and ethnic and cultural diversity
