Geography Paper for Gradenovember 2014

Jean-Michel Lafleur, Mikolaj Stanek

Geography Paper for Gradenovember 2014:

The Complacent Class Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog Marginal Revolution is the first thing I read every morning And his brilliant new book *The Complacent Class* has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we're working harder than ever to avoid change We're moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match.com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We're more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create *The Complacent Class* argues that this cannot go on forever We are postponing change due to our near-sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

New Urban Geographies of the Creative and Knowledge Economies Simonetta Armondi, Stefano Di Vita, 2019-10-23 The temporal and spatial intersection of information and telecommunication technologies creative and knowledge economies and related new manufacturing systems has been leading to significant effects on urban socioeconomic and spatial configurations and public policies Specifically the post crisis emergence of innovative workplaces to accommodate these changes is creating socioeconomic and spatial features that are only recently beginning to be explored in the scholarly literature According to this scenario this edited book offers a variety of avenues for exploring the relationships between contemporary production activities and new workplaces in several urban contexts In particular it focuses on the consequences of these relationships in terms of regeneration of the urban fabric as well as on their implication in terms of urban policies This book represents early observation of the fast growing phenomenon of new productive activities and workplaces against the background of the gig economy and sharing economy paradigms Central to this discussion is the investigation of the connection between digital technologies new works and workplaces and urban change processes and projects by providing an additional contribution to new urban agendas for contemporary cities The chapters originally published as a special issue in the Journal of Urban

pensions and investments and continuing income due to delaying retirement and the lowest percentage of GDP attributable to wages and highest attributable to profits since World War II But trickle down has not only distorted our economic thought it has also distorted our political thought our sociology and our concept of the rule of law The result has been that the trickle down policies promoted by the Republican Party are undermining our economy democracy institutions and health For further discussion contact author at johnjseip gmail com

Seeking Equality John Harles,2017-10-25 Seeking Equality compares economic inequality in the United States and Canada The North American neighbors have much in common socially politically and economically yet Canadians enjoy significantly higher levels of equality and material well being Harles explores the values and policy decisions that have influenced these different economic outcomes Drawing on the Canadian experience he explains why a yawning gap between the very rich and the rest should be cause for civic anxiety in the United States and what can be done about it

On Unemployment Mark R. Reiff,2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology

The Design of Frontier Spaces Carolyn Loeb, Andreas Luescher, 2016-03-09 In a globalizing world frontiers may be in flux but they remain as significant as ever New borders are established even as old borders are erased Beyond lines on maps however borders are spatial zones in which distinctive architectural graphic and other design elements are deployed to signal the nature of the space and to guide if not actually control behaviour and social relations within it This volume unpacks how manipulations of space and design in frontier zones historically as well as today set the stage for specific kinds of interactions and convey meanings about these sites and the experiences they embody Frontier zones organize an array of functions to facilitate the passage of goods information and people and to define and control access Bringing together studies from Asia Africa the Middle East Europe and North America this collection of essays casts a wide net to consider borders of diverse sorts Investigations of contemporary political frontiers are set within the context of examinations of historical borders borders that have existed within cities and virtual borders This range allows for reflection on shifts in how frontier zones are articulated and the impermanence of border emplacements as well as on likely scenarios for future frontiers This text is unique in bringing together a number of scholarly perspectives in the arts and humanities to examine how spatial and architectural design decisions convey meaning shape or abet specific social practices and stage memories of frontier zones that no longer function as such It joins and expands discussions in social science disciplines in which considerations of border practices tend to overlook the role of built form and material culture more broadly in representing social practices and meanings

Banking on Equality Supriti Bezbaruah, 2015-03-24 It may well be surprising to say that the world should look to India as a model of gender equality India s banking sector proves the exception with several women reaching the highest positions in India s top banks including the country s largest bank Based on interviews and surveys of bank employees in India s National Capital Region this book looks at what lies behind the media rhetoric and provides a systematic analysis of patterns of and responses to gender inequality in the banking sector in India The book uncovers how gender discrimination still persists in the banking sector albeit in covert forms Through a comparison of nationalized Indian private and foreign banks the book demonstrates how the impact of laws local cultural norms and gendered workplace practices are mediated through different organizational forms in these different types of banks to create varied experiences of gender inequality The book is one of the first books to provide a thorough in depth analysis of women s employment in the Indian banking sector currently an under researched area

South-North Migration of EU Citizens in Times of Crisis Jean-Michel Lafleur, Mikolaj Stanek, 2016-12-08 This open access book looks at the migration of Southern

European EU citizens from Portugal Spain Italy Greece who move to Northern European Member States Belgium France Germany United Kingdom in response to the global economic crisis Its objective is twofold First it identifies the scale and nature of this new Southern European emigration and examines these migrants socio economic integration in Northern European destination countries This is achieved through an analysis of the most recent data on flows and profiles of this new labour force using sending country and receiving country databases Second it looks at the politics and policies of immigration both from the perspective of the sending and receiving countries Analysing the policies and debates about these new flows in the home and host countries this book shows how contentious the issue of intra EU mobility has recently become in the context of the crisis when the right for EU citizens to move within the EU had previously not been questioned for decades Overall the strength of this edited volume is that it compiles in a systematic way quantitative and qualitative analysis of these renewed Southern European migration flows and draws the lessons from this changing climate on EU migration

Global Production Networks Neil M. Coe, Henry Wai-Chung Yeung, 2015 Accelerating processes of economic globalization have fundamentally reshaped the organization of the global economy towards much greater integration and functional interdependence through cross border economic activity In this interconnected world system a new form of economic organization has emerged Global Production Networks GPNs This brings together a wide array of economic actors most notably capitalist firms state institutions labour unions consumers and non government organizations in the transnational production of economic value National and sub national economic development in this highly interdependent global economy can no longer be conceived of and understood within the distinct territorial boundaries of individual countries and regions Instead global production networks are organizational platforms through which actors in these different national or regional economies compete and cooperate for a larger share of the creation transformation and capture of value through transnational economic activity They are also vehicles for transferring the value captured between different places This book ultimately aims to develop a theory of global production networks that explains economic development in the interconnected global economy While primarily theoretical in nature it is well grounded in cutting edge empirical work in the parallel and highly impactful strands of social science literature on the changing organization of the global economy relating to global commodity chains GCC global value chains GVC and global production networks GPN

The New Urban Crisis Richard Florida, 2017-04-11 In recent years the young educated and affluent have surged back into cities reversing decades of suburban flight and urban decline And yet all is not well Richard Florida argues in The New Urban Crisis Florida one of the first scholars to anticipate this back to the city movement in his groundbreaking The Rise of the Creative Class demonstrates how the same forces that power the growth of the world s superstar cities also generate their vexing challenges gentrification unaffordability segregation and inequality Meanwhile many more cities still stagnate and middle class neighborhoods everywhere are disappearing Our winner take all cities are just one manifestation of a profound crisis in

today's urbanized knowledge economy A bracingly original work of research and analysis The New Urban Crisis offers a compelling diagnosis of our economic ills and a bold prescription for more inclusive cities capable of ensuring growth and prosperity for all

Globalization Development and Social Justice Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology anthropology and development studies
