Teaching American History in the Middle Grades of the Elementary School Mary Gertrude Kelty, 1928 *Remembering America* Lawrence R. Samuel, 2015-11 American history is ubiquitous underscoring everything from food to travel to architecture and design It is also emotionally charged frequently crossing paths with political and legal issues In *Remembering America* Lawrence R Samuel examines the place that American history has occupied within education and popular culture and how it has continually shaped and reflected our cultural values and national identity The story of American history Samuel explains is not a straight line but rather one filled with twists and turns and ups and downs its narrative path as winding as that of the United States as a whole Organized around six distinct eras of American history ranging from the 1920s to the present Samuel shows that our understanding of American history has often generated struggle and contention as ideologically opposed groups battled over ownership of the past As women and minorities gained greater power and a louder voice in the national conversation our perspectives on American history became significantly more multicultural bringing race gender and class issues to the forefront These new interpretations of our history helped to reshape our identity on both a national and an individual level Samuel argues that the fight for ownership of our past combined with how those owners have imparted history to our youth crucially affects who we are Our interpretation and expression of our country's past reflects how that self identity has changed over the last one hundred years and created a strong sense of our collective history one of the few things Americans all have in common *Reading in History* Bonnie Gunzenhauser, 2015-10-06 A collection of essays that offer a methodological framework for the history of reading Focusing on a specific historical moment it gathers statistics about such issues as literacy rates library subscriptions publication and sales figures and print runs to answer questions about what was being read and by whom in a particular place and time *The American History Highway: A Guide to Internet Resources on U.S., Canadian, and Latin American History* Dennis A.
