Lost In War Lost In War:

The Web Emerson Hough, 1919 *The People in Arms* Daniel Moran, Arthur Waldron, 2003 *The People in Arms* first published in 2002 is concerned with the mass mobilization of society for war It takes as its starting point the French levée en masse of 1793 which replaced former theories and regulations concerning the obligation of military service with a universal concept more encompassing in its moral claims than any that had prevailed under the Ancien Régime The levée en masse has accordingly gone down in history as a spontaneous free expression of the French people's ideals and enthusiasm It also became a crucial source for one of the most powerful organizing myths of modern politics that compulsory mass social mobilizations merely express and give effective form to the wishes or higher values of society and its members The aim of the papers presented here is to analyse and compare episodes in which this distinctive ideological configuration has played a leading role

Three Modes of Modern Southern Fiction C. Hugh Holman, 2008 Within the general region designated as The South there are three societies only shadowily defined at their outer limits but distinct and sharp at their centers In these essays C Hugh Holman suggests ways in which race geography climate and religion have contributed to the formation of these relatively definite sub regions He also shows that continuing literary traditions and social attitudes have shaped qualified and to some extent defined the artistic methods and forms which writers in these regions used To demonstrate his thesis he has chosen Ellen Glasgow as spokesman for the Tidewater South Thomas Wolfe for the Piedmont South and William Faulkner for the Deep South A thorough scholar critic Holman approaches his subject positively presenting the impact of these sub regions on three great Southern novelists and showing the distinctively different views of the South which each novelist embodies in his work These essays will prove a useful tool to any student who wishes to understand the nature quality and meaning of the South both as a literary subject and as a personal and often tragic experience

Vietnam's Year of the Rat Ronald Bruce Frankum, Jr., 2014-04-04 Vietnam's Year of the Rat explores the lunar New Year 1960 and the dynamic relationship between two competing groups vying for control in the Republic of Vietnam One group led by United States Ambassador Elbridge Durbrow worked toward directing Vietnam towards an American style democracy that focused on forcing reforms within the Saigon government The other group headed by Republic of Vietnam President Ngô Đình Diệm attempted to navigate the demands of Durbrow and the State Department and to confront internal opposition and an emerging external threat while trying to further the goals of the Republic The result was a series of failed opportunities by both sides to resolve the differences of the two complementary if conflicting strategies Vietnam's Year of the Rat offers an alternative to the now standard historiography for this period of the study in the Vietnam War by providing a Vietnamese viewpoint into the story of that long and tragic war

The Seven Years War in Europe Franz A.J. Szabo, 2013-11-05 In this pioneering new work based on a thorough re-reading

of primary sources and new research in the Austrian State Archives Franz Szabo presents a fascinating reassessment of the continental war Professor Szabo challenges the well established myth that the Seven Years War was won through the military skill and tenacity of the King of Prussia often styled Frederick the Great Instead he argues that Prussia did not win but merely survived the Seven Years War and did so despite and not because of the actions and decisions of its king With balanced attention to all the major participants and to all conflict zones on the European continent the book describes the strategies and tactics of the military leaders on all sides analyzes the major battles of the war and illuminates the diplomatic political and financial aspects of the conflict

Westmoreland's War Gregory Daddis, 2013-12-16 General William C Westmoreland has long been derided for his failed strategy of attrition in the Vietnam War Historians have argued that Westmoreland's strategy placed a premium on high body counts through a big unit war that relied almost solely on search and destroy missions Many believe the U S Army failed in Vietnam because of Westmoreland's misguided and narrow strategy In a groundbreaking reassessment of American military strategy in Vietnam Gregory Daddis overturns conventional wisdom and shows how Westmoreland did indeed develop a comprehensive campaign which included counterinsurgency civic action and the importance of gaining political support from the South Vietnamese population Exploring the realities of a large yet not wholly unconventional environment Daddis reinterprets the complex political and military battlefields of Vietnam Without searching for blame he analyzes how American civil and military leaders developed strategy and how Westmoreland attempted to implement a sweeping strategic vision Westmoreland's War is a landmark reinterpretation of one of America's most divisive wars outlining the multiple interconnected aspects of American military strategy in Vietnam combat operations pacification nation building and the training of the South Vietnamese armed forces Daddis offers a critical reassessment of one of the defining moments in American history

War and Punishment H. E. Goemans, 2000-08-20 What makes wars drag on and why do they end when they do Here H E Goemans brings theoretical rigor and empirical depth to a long standing question of securities studies He explores how various government leaders assess the cost of war in terms of domestic politics and their own postwar fates Goemans first develops the argument that two sides will wage war until both gain sufficient knowledge of the other's strengths and weaknesses so as to agree on the probable outcome of continued war Yet the incentives that motivate leaders to then terminate war Goemans maintains can vary greatly depending on the type of government they represent The author looks at democracies dictatorships and mixed regimes and compares the willingness among leaders to back out of wars or risk the costs of continued warfare Democracies according to Goemans will prefer to withdraw quickly from a war they are not winning in order to appease the populace Autocracies will do likewise so as not to be overthrown by their internal enemies Mixed regimes which are made up of several competing groups and which exclude a substantial proportion of the people from access to power will likely see little risk in continuing a losing war in the hope of turning the tide Goemans explores the conditions and the reasoning behind this gamble for resurrection as well as other

strategies using rational choice theory statistical analysis and detailed case studies of Germany Britain France and Russia during World War I In so doing he offers a new perspective of the Great War that integrates domestic politics international politics and battlefield developments

The Oxford World History of Empire Peter Fibiger Bang, Christopher Alan Bayly, Walter Scheidel, 2021 This is the first world history of empire reaching from the third millennium BCE to the present By combining synthetic surveys thematic comparative essays and numerous chapters on specific empires its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas Only a few decades ago empire was believed to be a thing of the past now it is clear that it has been and remains one of the most enduring forms of political organization and power We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history Volume Two The History of Empires tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient Rome and China to the Mughals American settler colonialism and the Soviet Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases

*True Grunt** Billy White, 2020-02-13 True Grunt is not about a Vietnam battle or a Vietnam journal memoir It is a response to seeing short Vietnam War 50 years later videos on TV These videos show two sides of the infantry in Vietnam One side depicts the infantry fighting heroically and the other depicts the infantry committing some kind of atrocity I served on the front lines with the infantry grunt in 1970 1971 With many grandchildren I don t want this mixed message to be my legacy In those years the infantry especially became the most maligned soldiers in our country s history We were known as

the baby killers and monsters of Vietnam Those names continue to haunt us today By seeing and experiencing my life as infantry grunt at that time I hope the reader of True Grunt sees the infantry as moral men of intelligence and courage They fought in some of the worst conditions of war It is also a story of hope as one Vietnam Veteran regains his life overcomes personal tragedies and even disease from Agent Orange It s time to project 50 years later videos with just one message Thousands of Vietnam grunts like myself were true to ourselves our morals and our country We won a great Victory in Vietnam No asterisk needed
