Fundamentos de robótica y mecatrónica con MATLAB y Simulink Erik Valdemar Cuevas Jiménez, Esta obra tiene como objetivo contribuir al desarrollo de habilidades para el diseño de soluciones robóticas y mecatrónicas a través de una presentación tutorial de los fundamentos que se soporta mediante ejemplos concretos desarrollados en la plataforma de simulación Matlab y su entorno gráfico Simulink. Desde esta perspectiva cada concepto se desarrolla a partir de ideas pedagógicamente seleccionadas que habilitan al lector en la construcción de su propio marco de referencia para el diseño de sistemas de control robótico y mecatrónico. Aun cuando la estructura del texto ha sido proyectada para soportar cursos en materias afines a la robótica o la mecatrónica, esta obra puede utilizarse como referencia para profesionales o ingenieros que necesiten desarrollar algún tema particular en virtud de la presentación autocontenida en cada capítulo donde se incluyen ejercicios y notas bibliográficas de apoyo.

Language Attrition among Immigrant Teachers of Spanish Ivonne Lerner, 2025-02-14. Language Attrition among Immigrant Teachers of Spanish is the first book devoted entirely to Spanish language attrition in all language areas and specifically among language professionals. Based on original research awarded the ASELE Routledge prize in 2022, this volume presents an interdisciplinary and pioneering study on native language attrition among Spanish L1 immigrants in Israel, though its insights can be easily applied in any immigration setting. It focuses on the challenges faced by immigrant foreign language instructors teaching their L1 first language. Integrating both quantitative and qualitative data, the study explores Spanish language attrition in a multilingual and multicultural context like Israel, offering innovative insights and suggestions for future research. Language Attrition among Immigrant Teachers of Spanish also contributes to the native/non-native language teacher debate from the unique perspective of attrition, proposing a workshop for teachers alongside its research findings. This volume is an essential resource for researchers and postgraduate students of applied linguistics with a specific interest in language attrition or sociolinguistics. It will also be of interest to foreign language teachers and teacher
