Translation and Social Media Communication in the Age of the Pandemic Tong King Lee, Dingkun

Wang, 2022-02-23 This collection of essays represents the first of its kind in exploring the conjunction of translation and social media communication with a focus on how these practices intersect and transform each other against the backdrop of the cascading COVID 19 crisis. The contributions in the book offer empirical case studies as well as personal reflections on the topic illuminating a broad range of themes such as knowledge translation, crisis communications, language policies, cyberpolitics and digital platformization. Together they demonstrate the vital role of translation in the trust-based construction of global public health discourses while accounting for the new medialities that are reshaping the conception, experience and critique of translation in response to the cultural, political and ecological challenges in the post-pandemic world. Written by leading scholars in translation studies, media studies and literary studies, this volume sets to open up new conversations among these fields in relation to the global pandemic and its aftermath. Waves and Forms Basile Zimmermann, 2015-05-22 An examination of the relationship between technical objects and culture in contemporary China drawing on concepts from science and technology studies. Technical objects constrain what users do with them. They are not neutral entities but embody information, choices, values, assumptions or even mistakes embedded by designers. What happens when a technology is designed in one culture and used in another? What happens for example when a Chinese user is confronted by Roman alphabet embedded interfaces? In this book Basile Zimmermann examines the relationship between technical objects and culture in contemporary China drawing on concepts from science and technology studies (STS). He presents a new theoretical framework for culture based on the notions of waves and forms which provides a powerful

descriptive toolkit for technology and culture The materials Zimmermann uses to develop and illustrate his theoretical arguments come from three groups of case studies about the use of technical devices in today's China The first and most extensive group consists of observations of electronic music devices in Beijing the second is a study of a Chinese networking site Happy Network and the third is a collection of personal small scale observations on the way Chinese characters behave when located in alphabet encoded devices such as mobile phones web pages or printed documents Zimmermann discusses well known frameworks from STS and combines them with propositions and topics from Chinese studies Each of the case studies advances his theoretical argument Zimmermann's account shows how cultural differences can be integrated into STS research and how sinologists can turn their attention from ancient texts and traditional art to everyday things in present day China

Infocracy Byung-Chul Han, 2022-07-19 The tsunami of information unleashed by digitization is threatening to overwhelm

us drowning us in a sea of frenzied communication and disrupting many spheres of social life including politics Election campaigns are now being waged as information wars with bots and troll armies and democracy is degenerating into infocracy In this new book Byung Chul Han argues that infocracy is the new form of rule characteristic of contemporary information capitalism Whereas the disciplinary regime of industrial capitalism worked with compulsion and repression this new information regime exploits freedom instead of repressing it Surveillance and punishment give way to motivation and optimization we imagine that we are free but in reality our entire lives are recorded so that our behaviour might be psychopolitically controlled Under the neoliberal information regime mechanisms of power function not because people are aware of the fact of constant surveillance but because they perceive themselves to be free This trenchant critique of politics in the information age will be of great interest to students and scholars in the humanities and social sciences and to anyone concerned about the fate of politics in our time **The SAGE Handbook of Web History** Niels Brügger,Ian

religion Karl Giberson and Mariano Artigas offer an informed analysis of the views of these six scientists carefully distinguishing science from philosophy and religion in the writings of the oracles This book will be welcomed by many who are disturbed by the tone of the public discourse on the relationship between science and religion and will challenge others to reexamine their own preconceptions about this crucial topic The Owned Media Doctrine Taulbee Jackson,Erik Deckers,2013-07 The Petraeus Doctrine for the 21st Century Marketer The Owned Media Doctrine is to Marketing what The Petraeus Doctrine was to modern warfare a complete re thinking of philosophy strategy and tactics dictated by the way war has changed Just like in warfare marketing and media is not at all what it used to be but marketers are still fighting the battle like it s 1965 The Owned Media Doctrine is just that a new doctrine for Marketing A new philosophy strategic approach and operational model for the marketing operations function based on how media works today and how it will work in the future It s the marketer s field manual for today s two way real time media environment In this remarkable and remarkably useful book Jackson and Deckers provide the granular step by step instructions and advice that senior digital marketers have craved for years This is the book you ll keep on your desk forever or at least until they have time to write the 2nd edition Jay Baer Convince Convert Reis and Trout changed the way we think with Marketing Warfare Anderson did it with The Long Tail Jackson eloquently welcomes us to the new age of Owned Media and the reality we face as real time marketers An immediate must read and more importantly an immediate must do Michael Grimes VP Omni Channel Marketing at Finish Line Everything in this book just makes so much sense If the words content or marketing are anywhere in your job description do yourself a favor and read it cover to cover Shelly Towns VP of Product at AngiesList com The Owned Media Doctrine will show you a future proof way to advance your marketing efforts based on real world experience with some of the largest brands on the planet and it will let the ever changing media ecosystem evolve around you rather than the other way around **Digital Culture & Society (DCS)** Anna Näslund,Ramón Reichert,2025-02-27 Since the full scale Russian attack on Ukraine on February 24 2022 warfare on social media and online platforms has introduced a new way of mediatizing war A constant war related newsfeed on social media and online platforms has emerged Against this background the war in Ukraine represents a fractal war where you choose to subscribe to your own tailored version of warfare in your feed This makes it the most personalized war in history Andrew Hoskins This special issue investigates smartphone use online media platform politics and the impact of the crowdsourced war New forms of digital participation collective witnessing and web archiving by media users and media providers are linked with new methodological and empirical challenges for source analysis of digital forensics jurisdiction and collective memory The contributors analyze digital society and its relationship to war violence genocide witnessing practices and cultural appropriation in a critical and reflective manner
