Food in America Andrew F. Smith, 2017-02-16 This three volume work examines all facets of the modern U S food system including the nation s most important food and agriculture laws the political forces that shape modern food policy and the food production trends that are directly impacting the lives of every American family Americans are constantly besieged by conflicting messages about food the environment and health and nutrition Are foods with genetically modified ingredients safe Should we choose locally grown food Is organic food better than conventional food Are concentrated animal feed operations destroying the environment Should food corporations target young children with their advertising and promotional campaigns This comprehensive three volume set addresses all of these questions and many more probing the problems created by the industrial food system examining conflicting opinions on these complex food controversies and highlighting the importance of food in our lives and the decisions we make each time we eat The coverage of each of the many controversial food issues in the set offers perspectives from different sides to encourage readers to examine various viewpoints and make up their own minds The first volume Food and the Environment addresses timely issues such as climate change food waste pesticides and sustainable foods Volume two entitled Food and Health and Nutrition addresses subjects like antibiotics food labeling and the effects of salt and sugar on our health The third volume Food and the Economy tackles topics such as food advertising and marketing food corporations genetically modified foods globalization and megagrocery chains Each volume contains several dozen primary documents that include firsthand accounts written by promoters and advertisers journalists politicians and government officials and supporters and critics of various views related to food and beverages representing speeches advertisements articles books portions of major laws and government documents to name a few These documents provide readers additional resources from which to form informed opinions on food issues

The Athenaeum , 1914 Rivers Lost, Rivers Regained Martin Knoll, Uwe Lubken, Dieter Schott, 2017-06-13 Many cities across the globe are rediscovering their rivers After decades or even centuries of

environmental decline and cultural neglect waterfronts have been vamped up and become focal points of urban life again hidden and covered streams have been daylighted while restoration projects have returned urban rivers in many places to a supposedly more natural state This volume traces the complex and winding history of how cities have appropriated lost and regained their rivers But rather than telling a linear story of progress the chapters of this book highlight the ambivalence of these developments The four sections in *Rivers Lost Rivers Regained* discuss how cities have gained control and exerted power over rivers and waterways far upstream and downstream how rivers and floodplains in cityscapes have been transformed by urbanization and industrialization how urban rivers have been represented in cultural manifestations such as novels and songs and how more recent strategies work to redefine and recreate the place of the river within the urban setting At the nexus between environmental urban and water histories *Rivers Lost Rivers Regained* points out how the urban river relationship can serve as a prime vantage point to analyze fundamental issues of modern environmental attitudes and practices

African American Doctors of World War I W. Douglas Fisher, Joann H. Buckley, 2015-11-27 In World War I 104 African American doctors joined the United States Army to care for the 40 000 men of the 92nd and 93rd Divisions the Army's only black combat units The infantry regiments of the 93rd arrived first and were turned over to the French to fill gaps in their decimated lines The 92nd Division came later and fought alongside other American units Some of those doctors rose to prominence others died young or later succumbed to the economic and social challenges of the times Beginning with their assignment to the Medical Officers Training Camp Colored the only one in U S history this book covers the early years education and war experiences of these physicians as well as their careers in the black communities of early 20th century America

Geotechnical and Exploration Drilling in the Polar Regions Pavel G. Talalay, 2023-01-01 This book provides a comprehensive review of drilling technologies in the polar regions from the portable drilling equipment for shallow sampling and coring to heavy drilling equipment for deep onshore and offshore drilling Particular attention is given to safe drilling methods in permafrost In recent years interest in drilling in the polar regions has increased under the pressure of the geopolitical rush and the undiscovered resource potential In addition borehole monitoring of permafrost thermal states is urgently needed to obtain evidence of climate change The book focuses on the latest drilling technologies but also discusses the historical development of sampling and drilling tools and devices over the last 60 70 years providing valuable insights into a way forward and future possibilities

Qanat Dale Lightfoot, 2024-08-22 Qanats are ubiquitous yet unseen and a clever way to create streams where none exist in nature For 3 000 years they have made life possible in impossible places and still sustain life and livelihoods in many countries today After 30 years of field research Dale Lightfoot provides the first comprehensive study of the qanat and sheds new light on their unique locations and distribution their origins and history their ecology current status and use Qanats are remarkably engineered underground aqueducts using gravity to bring water to villages and towns where reliable flowing surface water is scarce or absent Although an ancient technology more than 46

000 of them still flow around the world today with their sustainable nature making them a focus of renewed interest Richly illustrated with images and a series of original maps this is the most complete record to date of the locations and distribution of qanats worldwide including examples from the Middle East North Africa Europe Central Asia China India Mexico and South America

Cities, Climate Change, and Public Health Ella Jisun Kim,2020-04-20 To date climate adaptation has mostly focused on protecting physical assets from potentially catastrophic climatic changes While the lack of human vulnerability and equity components in adaptation plans and policies has been critiqued by many this has not yet led to climate adaptation planning and policymaking processes that situates people s health and well being front and center This book examines how cities can use a public health frame of climate change to boost people s understanding of and concern about climate change and increase policy support for climate adaptation efforts at the local level In addition it aims to strengthen our understanding of different tools cities can use to operationalize a focus on the health implications of climate change enhance collective decision making capacities and ultimately build human resilience to climate change

International Water Law and the Human Right to Water Imad Antoine Ibrahim,2024-11-19 This book examines the development of international law applicable to Transboundary Aquifers TBAs considering the Human Right to Water and Sanitation HRWS The purpose is to determine how International Water Law IWL and the HRWS can be harmonized in the context of TBAs This is important given rules and instruments adopted to address this topic are relatively nascent and the field itself is still in the process of developing regulatory frameworks Taking the application of the HRWS to shared aquifers as a case study the work discusses whether IWL and International Human Rights Law complement each other The response to this question requires an analysis of the development of International Groundwater Law and its challenges the evolution of the HRWS the nature of transboundary groundwaters and the interplay between these two fields The author argues that IWL agreements should contain a provision related to the HRWS to ensure the protection of this right with a stipulation included in the nonbinding instrument that tackles shared groundwaters the Draft Articles on the Law of Transboundary Aquifers adopted in 2008 through the United Nations General Assembly Resolution The book will be of interest to international lawyers water and human right experts geologists and anyone interested in water and human rights issues
