The Way Forward To A New Global Economy Jeffrey A. A. Kolber, 2018-02-12 THE MOST IMPORTANT TOPIC THAT HAS BEEN GETTING WORSE SINCE THE DOT COM CRASH AND GULF WAR IS THE IMPACT ON THE ECONOMY After contemplating the instant deterioration of his net worth this citizen has revisited the repetitive downfalls and has seen the middle class go up and down like a yo yo However I have offered a novel re structuring of our economy to cure these problems And it is encapsulated in a rational logical proposal of not just changes to the Capitalist model but a more fundamental shift that can be applied to all our global nations whether they be governed by Communism Stalinism Monarchism or Tribalism All forms of government would be replaced with a jointly managed humanitarian oriented communal type of government This form of governing is dedicated to helping build up all the societies and their economies everywhere And it accomplishes this by bringing a constant supply of labor goods services and resources to all economies using a managed resource pool of global collaborative production to accommodate different nations requirements Demand in lieu of a competitive free market The reason for such a change is that I have not seen any permanent remediate on to recessions as one example Upon examination on of our society s ills mistakes leadership preferences et al it is the author s opinion that fundamental changes are required to the economic political social foundation on in order to benefit all of us not just a few groups of people And so the intent of these Essays is to give our Citizens a way to how they might think through it all while merging our own needs with the cultures and people of the other six hundred nations on our planet enriching each other as we progress in mutual harmony
