Fear and Schooling Ronald W. Evans, 2019-09-23 By exploring the tensions, impacts, and origins of major controversies relating to schooling and curricula since the early twentieth century, this insightful text illustrates how fear has played a key role in steering the development of education in the United States. Through rigorous historical investigation, Evans demonstrates how numerous public disputes over specific curricular content have been driven by broader societal hopes and fears. Illustrating how the population's concerns have been historically projected onto American schooling, the text posits educational debate and controversy as a means by which we struggle over changing anxieties and competing visions of the future and, in doing so, limit the influence of key progressive initiatives. Episodes examined include the Rugg textbook controversy, the 1950s crisis over progressive education, the MACOS dispute, conservative restoration, culture war battles, and corporate school reform. In examining specific periods of intense controversy and drawing on previously untapped archival sources, the author identifies patterns and discontinuities and explains the origins, development, and results of each case. Ultimately, this volume powerfully reveals the danger that fear-based controversies pose to hopes for democratic education. This informative and insightful text will be of interest to graduate and postgraduate students, researchers, and academics in the fields of educational reform, history of education, curriculum studies, and sociology of education.

*Schooling Corporate Citizens* Ronald W. Evans, 2014-11-27 *Schooling Corporate Citizens* examines the full history of accountability reform in the United States from its origins in the 1970s and 1980s to the development of the Common Core in recent years. Based in extensive archival research, it traces the origins and development of accountability reform as marked by key government and business-led reports from *A Nation at Risk* to *No Child Left Behind* and *Race to the Top*. By using the lens of social studies and civic education as a means to understand the concrete impacts of accountability reforms on schools, Evans shows how reformers have applied principles of business management to schools in extreme ways, damaging civic education and undermining democratic learning. The first full-length narrative account of accountability reform and its impact on social studies and civic education, *Schooling Corporate Citizens* offers crucial insights to the ongoing process of American school reform, shedding light on its dilemmas and possibilities and allowing for thoughtful consideration of future reform efforts.

*Civic Education in the Twenty-First Century* Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians, governmental institutions, schools, new technologies, and interest groups work together to promote informed, engaged citizens.

Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters

The Three Ages of Government Jos C.N. Raadschelders, 2020-11-05 It is only in the last 250 years that ordinary people in some parts of the world have become citizens rather than subjects This change happened in a very short period between 1780 and 1820 a result of the foundations of democracy laid in the age of revolutions A century later local governments embraced this shift due to rapid industrialization urbanization and population growth During the twentieth century all democratic governments began to perform a range of tasks functions and services that had no historical precedent In the thirty years following the Second World War Western democracies created welfare states that for the first

time in history significantly reduced the gap between the wealthy and everyone else Many of the reforms of that postwar period have been since rolled back because of the belief that government should be more like a business Jos C N Raadschelders provides the information that all citizens should have about their connections to government why there is a government what it does how it does it and why we can no longer do without it The Three Ages of Government rises above stereotypical thinking to show the centrality of government in human life Knowledge Games Karen Schrier,2016-06-15 Are games the knowledge producers of the future Imagine if new knowledge and insights came not just from research centers think tanks and universities but also from games of all things Video games have been viewed as causing social problems but what if they actually helped solve them This question drives Karen Schrier s Knowledge Games which seeks to uncover the potentials and pitfalls of using games to make discoveries solve real world problems and better understand our world For example so called knowledge games such as Foldit a protein folding puzzle game SchoolLife which crowdsources bullying interventions and Reverse the Odds in which mobile game players analyze breast cancer data are already being used by researchers to gain scientific psychological and humanistic insights Schrier argues that knowledge games are potentially powerful because of their ability to motivate a crowd of problem solvers within a dynamic system while also tapping into the innovative data processing and computational abilities of games In the near future Schrier asserts knowledge games may be created to understand and predict voting behavior climate concerns historical perspectives online harassment susceptibility to depression or optimal advertising strategies among other things In addition to investigating the intersection of games problem solving and crowdsourcing Schrier examines what happens when knowledge emerges from games and game players rather than scientists professionals and researchers This accessible book also critiques the limits and implications of games and considers how they may redefine what it means to produce knowledge to play to educate and to be a citizen

**The Politics of Civic Education** Eleni M. Mantas-Kourounis, 2024-06-10 This book chronicles the progression of civic education advocacy since the early 2000s It identifies the main actors that called for civic education reform describes their motivations and policy platforms and documents the path taken to capture state policy agendas It argues that No Child Left Behind incentivized civic education advocates to mobilize a call to action to restore emphasis on civics that materialized into national policy reform proposals that successfully captured the agendas of state legislatures and bureaucracies This book analyzes the implementation and sustainability of these civic education policy reforms by undertaking a comparative case study analysis of school districts in Utah and Connecticut Through the voices of teachers and district administrators the book tells the story of what happened when these state policy reforms inspired by national initiatives hit the local level where the rubber meets the road As ideological debates about schools and democracy unfold across the country as civic education advocates and proposals proliferate this book treats civic education not as panacea but as a concrete policy area to be analyzed and understood It contextualizes the current debate and offers a critical assessment of the most recent comprehensive state level civic education policy reform It argues that while questions linger about what type of civic inspired educational interventions remains most effective for whom where and why the implementation of such interventions are profoundly impacted by local actors and local politics and that future initiatives should take this dimension into consideration

Stakeholder Engagement Aimee L. Franklin, 2020-06-18 This book analyses the relationship between stakeholder engagement practices and organizational sustainability across sectors and disciplines It illuminates the relationships between the inputs and processes vital for all kinds of organizations to engage stakeholders Then it describes the mutually valued outcomes that can produce broader organizational impacts and sustainability Each chapter is structured around a logic model that provides an analytical framework to engage the reader in strategic analysis and offer practical applications for adaptation and implementation in any organization The book encourages the reader to systematically consider the descriptive instrumental and normative aspects of stakeholder theory as a precursor to designing stakeholder engagement practices

**The Character of Curriculum Studies** W. Pinar, 2011-12-19 Assembles essays addressing the recurring question of the subject understood both as human person and school subject thereby elaborating the subjective and

disciplinary character of curriculum studies      **Social Media for Civic Education** Amy L. Chapman, 2022-10-17 This open access book provides the theoretical and pedagogical foundations for a promising new approach to civic education using social media to teach civics While many measures indicate that youth civic engagement has long been in decline many of these measures fail to take into account all of the ways that youth can interact with civic life One of these understudied ways is through social media including platforms like Twitter where young people have the opportunity to encounter the news engage with people in power and bring attention to the needs in their community Throughout this volume Chapman explores how and why teachers can use social media to teach civics as well as how it might meet the needs of students in ways other approaches do not      *Political Animals* Rick Shenkman, 2016-01-05 Can a football game affect the outcome of an election What about shark attacks Or a drought In a rational world the answer of course would be no But as bestselling historian Rick Shenkman explains in *Political Animals* our world is anything but rational Drawing on science politics and history Shenkman explores the hidden forces behind our often illogical choices *Political Animals* challenges us to go beyond the headlines which often focus on what politicians do or say they ll do and to concentrate instead on what s really important what shapes our response Shenkman argues that contrary to what we tell ourselves it s our instincts rather than arguments appealing to reason that usually prevail Pop culture tells us we can trust our instincts but science is proving that when it comes to politics our Stone Age brain often malfunctions misfires and leads us astray Fortunately we can learn to make our instincts work in our favor Shenkman takes readers on a whirlwind tour of laboratories where scientists are exploring how sea slugs remember chimpanzees practice deception and patients whose brains have been split in two tell stories The scientists findings give us new ways of understanding our history and ourselves and prove we don t have to be prisoners of our evolutionary past In this engaging illuminating and often riotous chronicle of our political culture Shenkman probes the depths of the human mind to explore how we can become more political and less animal      **America's State Governments** Jennifer Bachner, Benjamin Ginsberg, 2020-07-23 This timely and important new work takes a critical look at government in the American states and illustrates the disconnect between state government institutions and their constituents The text illuminates three basic political problems of state governments weak constitutional and institutional foundations a lack of civic engagement and long histories of unchecked public corruption In addition the book explains why some states did and others did not respond promptly to the COVID 19 pandemic and examines America s long standing problem of police and prosecutorial misconduct providing a context for understanding the demonstrations and protests that rocked American cities in the summer of 2020 For students and citizens of state politics the book concludes with a proposal aimed at civic literacy and action      **Toward Community-Based Learning** , 2020-01-29 *Toward Community Based Learning* contends that the ideal school offers the opportunity to understand reality in a way that connects teaching and education with conditions in the surrounding community and the student s life and concerns This view holds that problem solving requires an understanding

and awareness of the whole which can be achieved through direct activities In this manner learning is linked to its natural context with ideal instruction being actively problem oriented holistic and life centered This thought provoking volume offers an essential and comprehensive picture of community based learning in the field of education The book deals with the history of community based learning as well as its present applications including its global successes and difficulties The authors provide numerous pedagogical approaches that are designed to meet the challenges of contemporary education They show how learning is connected with authentic community environments in which students can gain new understandings through solving emerging problems They also demonstrate how teachers can make learning more functional and holistic so that students have the ability to work in new situations within the complex world around them School specific descriptions reveal how teachers and their students have implemented community based projects in the U S A India and China at different times Contributors are Thomas L Alsbury Mary Ewans Linda Hargreaves Susan K Johnsen Eija Kimonen Susan Kobashigawa Karon N LeCompte Suzanne M Nesmith Raimo Nevalainen and Lakia M Scott

*Chocolate City* Chris Myers Asch, George Derek Musgrove, 2017-10-17 Monumental in scope and vividly detailed *Chocolate City* tells the tumultuous four century story of race and democracy in our nation s capital Emblematic of the ongoing tensions between America s expansive democratic promises and its enduring racial realities Washington often has served as a national battleground for contentious issues including slavery segregation civil rights the drug war and gentrification But D C is more than just a seat of government and authors Chris Myers Asch and George Derek Musgrove also highlight the city s rich history of local activism as Washingtonians of all races have struggled to make their voices heard in an undemocratic city where residents lack full political rights Tracing D C s massive transformations from a sparsely inhabited plantation society into a diverse metropolis from a center of the slave trade to the nation s first black majority city from *Chocolate City* to *Latte City* Asch and Musgrove offer an engaging narrative peppered with unforgettable characters a history of deep racial division but also one of hope resilience and interracial cooperation

The Future of Civic Education Elizabeth Yeager Washington, Keith C. Barton, 2024-10-01 Speaking to the need to move beyond traditional formulations this textbook presents radical visions for transforming civic education in the United States Drawing on the experience of educators and scholars including those rooted in feminist queer abolitionist global and race conscious perspectives this work offers new practical ideas for civic education reform Responding to recent political crises many scholars educators and public commentators have called for a rebirth of civic education but these all are grounded in the premise that the goal of civic education should be to teach students about the U S Constitutional system and how to operate within it This book argues that the U S governmental system including the Constitution is infused with racist and anti democratic premises and procedures It asks How can we seek a new path one that is more democratic more equitable and more humane A diverse range of leading civic educators who are willing not just to push the boundaries of civic education but to operate outside its assumptions altogether explore what future possibilities for civic education might look like and how these innovative ideas could be implemented in the classroom Combining theory with practice The Future of Civic Education will be important reading for those studying or researching in social studies methods social studies issues citizenship and civic education It will also be beneficial to social studies teachers at elementary and secondary levels as well as policymakers and non governmental organizations NGOs

Interest Groups Civics: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Let's delve into the realm of popular books, exploring the captivating narratives that have charmed audiences this year.

**The Must-Read : Colleen Hoover "It Ends with Us"** This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph.

**Interest Groups Civics : Taylor Jenkins Reid "The Seven Husbands of Evelyn Hugo"** This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery.

**Interest Groups Civics : Delia Owens "Where the Crawdads Sing"** This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. **The Secret History** is an exceptional and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
