

## INTRODUCTION

Assembled in this manual are operation, lubrication, and maintenance instructions for the Farmall and International 706 Gasoline, LP Gas, and Diesel Tractors, including the Hi-Clear and All-Wheel Drive models. This material has been prepared in detail in the hope that it will help you to better understand the correct care and efficient operation of your tractor.

Your International Harvester dealer has factory-trained servicemen, modern tools, and IH service parts to assure you of satisfactory tractor operation. To get the most out of your tractor, and to assure economical operation and top performance, your tractor should be inspected periodically by your International Harvester dealer.

Depending upon your use of the tractor, these inspections should be performed as needed, or at least once a year, at which time a tune-up or other necessary service work should be performed. Proper pre-season maintenance will assure you of minimum lost time when your tractor is most needed.

Dealers are kept informed on the latest methods of servicing tractors. They carry stocks of IH parts, and are backed in every case by the full facilities of a nearby International Harvester district office and parts depot.

In order to provide a tractor equipped as nearly as possible to suit each customer's needs, a variety of extra equipment and accessories is available.

Where operating and maintaining instruction on these items is required, it is included in the instructions for operating or maintaining the tractor. Disregard the instructions for equipment not on your tractor.

Front and rear end weights are required to provide safe and efficient operation with various equipment under different conditions. For maximum recommended weight addition information refer to "WEIGHTS" section in this manual.

The illustrations in this manual are numbered to correspond with the pages on which they appear; for example, Illustr. 3 and 3A are on page 3.

Throughout this manual the use of the terms LEFT, RIGHT, FRONT, and REAR must be understood to avoid confusion when following instructions. LEFT and RIGHT indicate the left and right sides of the tractor when facing

forward in the driver's seat. Reference to FRONT indicates the radiator end of the tractor; to REAR the hitch end. See Illustr. 3.

When in need of parts, always specify the tractor and engine serial numbers including prefix and suffix letters. The tractor serial number is stamped on a name plate attached to the left side of the clutch housing. See Illustr. 3A.
