**Narratives of the Therapeutic Encounter** Susan Bainbrigge, Maren Scheurer, 2020-07-27 This collection of essays explores the ways in which talking therapies have been depicted in twentieth century and contemporary narratives life writings fiction and poetry in French This vibrant corpus of francophone literary engagements of therapy has so far been widely unexplored but it offers rich insights into the connections between literature and psychoanalysis As the number of autobiographical and fictional depictions of the therapeutic encounter is still on the rise these creative outputs raise pressing questions why do narratives of the therapeutic encounter continue to fascinate writers and readers What do these works tell us about the particular culture and history in which they are written What do they tell us about therapeutic and other human encounters The volume highlights the important role that the creative arts have played in offering representations and explorations of our minds our relationships and our mental health or more pressingly ill health The volume's focus is not only on the patient's experience as expressed via the creative act and as counterweight to the practitioner's case study but more specifically on the therapeutic encounter specifically the relationship between therapist and patient The contributors here engage with ideas and methodologies within contemporary psychoanalytic thought including but not limited to those of Sigmund Freud Melanie Klein André Green Julia Kristeva Jacques Lacan and Donald Winnicott highlighting the dynamic research culture that exists in this field and maintaining a dialogue between the humanities and various therapeutic disciplines **Narratives of the Therapeutic Encounter** combines the analysis of psychoanalytic and fictional texts to explore the implications that arise from the space between the participants in therapy including creative and aesthetic inspirations therapeutic potentials and ethical dilemmas
