Forouzan,2007

Annotation As one of the fastest growing technologies in our culture today data communications and networking presents a unique challenge for instructors As both the number and types of students are increasing it is essential to have a textbook that provides coverage of the latest advances while presenting the material in a way that is accessible to students with little or no background in the field Using a bottom up approach Data Communications and Networking presents this highly technical subject matter without relying on complex formulas by using a strong pedagogical approach supported by more than 700 figures Now in its Fourth Edition this textbook brings the beginning student right to the forefront of the latest advances in the field while presenting the fundamentals in a clear straightforward manner Students will find better coverage improved figures and better explanations on cutting edge material The bottom up approach allows instructors to cover the material in one course rather than having separate courses on data communications and networking      *The Astrophotography Manual* Chris Woodhouse,2017-12-04 The Astrophotography Manual Second Edition is for photographers ready to move beyond standard SLR cameras and editing software to create beautiful images of nebulae galaxies clusters and the stars Beginning with a brief astronomy primer this book takes readers through the full astrophotography process from

choosing and using equipment to image capture calibration and processing This combination of technical background and hands on approach brings the science down to earth with practical methods to ensure success This second edition now includes Over 170 pages of new content within 22 new chapters with 600 full color illustrations Covers a wide range of hardware including mobile devices remote control and new technologies Further insights into leading software including automation Sequence Generator Pro and PixInsight Ground breaking practical chapters on hardware and software as well as alternative astrophotography pursuits
