Powell,1990 A perennial favorite invaluable as a learning tool I highly recommend it PREVIEW *Manual of Online Search Strategies* C.J. Armstrong,J.A. Large,2018-12-20 Published in 1992 like the first this second edition is not intended as introductory textbook command driven Boolean searching It is targeted at online searchers who already have some knowledge of command languages and may be proficient searchers on databases in one or two subject areas but when

required to venture into new and less familiar territory still need guidance. It is also offered to end users who possess the subject expertise but lack of information retrieval know how. The Manual is offered as a guide to database selection and a navigational aid through the twists and turns of the retrieval maze at least some of the dead ends and backtracking may thereby be avoided. This volume written by experts in their various fields deals with the subject coverage and record structures of specific databases, offers comparisons between databases, context indexing procedures, updating policies etc. It discusses the choice between online and CD ROM sources and between hosts if online is selected and illustrates strategies with numerous search extracts.

Monthly Catalogue, United States Public Documents, 1989 *A Reference Guide for English Studies* Michael J. Marcuse, 1990-01-01. This ambitious undertaking is designed to acquaint students, teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature. Within each of 24 major sections, Marcuse lists and annotates bibliographies, guides, reviews of research encyclopedias, dictionaries, journals and reference histories. The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate. Although cost-conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L. Harner's *Literary Research Guide* Modern Language Assn of America 1989, larger academic libraries will want Marcuse's volume. Jack Bales, Mary Washington Coll Lib, Fredericksburg, Va. Library Journal.

Walford's Guide to Reference Material: Science and technology Albert John Walford, 1993. Cette bibliographie commentée touche tous les domaines du savoir humain soit de l'Art à la Zoologie, elle signale les ouvrages les plus importants soit des bibliographies, des index, des encyclopédies, des dictionnaires, des guides, des revues etc. dont le support d'information est soit du papier, soit un cd rom, soit une base de données en ligne directe, soit un microforme etc. L'objectif du guide Walford est de devenir la source d'information sur tout type de référence, nonobstant le support technique.
