

Agricultural Science (501/1, 2, 3) Preamble

The Examinations Council of Zambia has made adjustments to the assessment of Agricultural Science at Grade 9 level so as to be in line with the revised Agricultural Science Junior Secondary School Syllabus of 2013 developed by Curriculum Development Centre (CDC) of the Ministry of Education, Science, Vocational Training and Early Education (MESVTEE).

The purpose of the specimen papers is to guide the teachers and would be candidates on the nature and content of the Grade 9 Agricultural Science examination which will begin to be administered in 2015 examination session.

Assessment Aims and Objectives

The purpose of the Grade 9 Agricultural Science examination is to test candidate's understanding and ability to apply the subject in real life. Assessment of Grade 9 students in Agricultural Science will contribute to the certification of candidates, measurement of academic attainment, promotion of learners to Grade 10 and feedback to educators on effectiveness of instruction. The Grade 9 examination will assess candidate's performance against the following three (3) Assessment Objectives:

1. knowledge with understanding
2. handling of information and problem solving
3. practical activities.

Test Design

The Grade 9 examination will consist of three papers: Paper 1 (501/1), Paper 2 (501/2) and Paper 3 (501/3).

Paper 1 (1 Hour) will consist of 40 compulsory multiple choice items (questions) carrying 40 marks. The 40 questions will be drawn from all the topics of the syllabus.

Paper 2 (2 hours) will consist of 8 compulsory structured questions carrying 10 marks each. The 8 questions will also cover all the topics in the syllabus.

Paper 3 will be a school-based project done in the period beginning from Grade 8 term 3 and ending by Grade 9 term 2. Each pupil is expected to maintain records of project work in an exercise book or file which should be available for inspection and assessment. The Head of Department, Headteacher and Standards Officers in charge of Examinations at district level will monitor projects for candidates at different stages of implementation.

The number of questions and mark weighting is summarised below;

COMPONENT	PAPER TYPE	NO. OF QUESTIONS	MARKS	WEIGHTING OF MARKS	TIME ALLOWANCE
501/1	Multiple Choice	40	40	29%	1 hour
501/2	Theory	8	80	57%	2 hours
501/3	Project	1	20	14%	2 hours

GMO Food David E. Newton, 2014-10-07 Providing an exhaustive background on the history of genetically modified organism GMO crops and foods as well as the controversies surrounding these products this book allows readers to develop their own particular viewpoint on the production and use of GMO substances Genetic engineering has long been used to impart desirable characteristics to food plants in order to improve crop yield pest resistance and herbicide tolerance Genetic modification of foods however has created a storm of controversy everywhere in the world including the United States What are the benefits of and risks involved with genetically modified organisms GMO and crops What powerful industry pressures have extended the sale and use of GMO foods and crops globally And how should consumer food products that involve GM ingredients be labeled GMO Food A Reference Handbook addresses these questions and the complex issues involved allowing readers to fully understand why genetically modified organisms represent one of the most important issues in the 21st century The book provides clear factual information and background on the history of genetically modified crops and foods covering topics such as the historic methods of plant and animal modification such as cross breeding and important discoveries in genetics biochemistry molecular biology genetic engineering and related fields the social political philosophical and economic issues that have arisen with these scientific advances and the laws and regulations that have resulted from the range of attitudes about GMO foods The book also supplies additional resources for readers performing extensive research in an annotated bibliography of books articles reports and web pages

Hazardous Chemicals Ernst Homburg, Elisabeth Vaupel, 2019-08-01 Although poisonous substances have been a hazard for the whole of human history it is only with the development and large scale production of new chemical substances over the last two centuries that toxic manmade pollutants have become such a varied and widespread danger Covering a host of both notorious and little known chemicals the chapters in this collection investigate the emergence of specific toxic pathogenic carcinogenic and ecologically harmful chemicals as well as the scientific cultural and legislative responses they have prompted Each study situates chemical hazards in a long term and transnational framework and demonstrates the importance of considering both the natural and the social contexts in which their histories have unfolded

Present Knowledge in Food Safety Michael E. Knowles, Lucia Anelich, Alan Boobis, Bert Popping, 2022-10-08 Present Knowledge in Food Safety A Risk Based Approach Through the Food Chain presents approaches for exposure led risk assessment and the management of changes in the chemical pathogenic microbiological and physical radioactivity contamination of food at all key stages of production from farm to consumption This single volume resource introduces scientific advances at all stages of the production to improve reliability predictability and relevance of food safety assessments for the protection of public health This book is aimed at a diverse audience including graduate and post graduate students in food science toxicology microbiology medicine public health and related fields The book's reach also includes government agencies industrial scientists and policymakers involved

in food risk analysis Includes new technologies such as nanotechnology genetic modification and cloning Provides information on advances in pathogen risk assessment through novel and real time molecular biological techniques biomarkers resistance measurement and cell to cell communication in the gut Covers the role of the microbiome and the use of surrogates especially for viruses Civic Engagement in Food System Governance Alan R. Hunt,2015-10-05 The local food movement is one of the most active of current civil engagement social movements This work presents primary evidence from over 900 documents interviews and participant observations and provides the first descriptive history of local food movement national policy achievements in the US from 1976 to 2013 and in the UK from 1991 to 2013 together with reviews of both the American and British local food movements It provides a US UK comparative context significantly updating earlier comparisons of American British and European farm and rural policies The comparative perspective shows that over time more effective strategies for national policy change required social movement building strategies such as collaborative policy coalitions capacity building for smaller organizations and policy entrepreneurship for joining together separate rural farming food and health interests In contrast narrowly defined single issue campaigns often undermined long term policy change even if short term wins emerged By profiling interviews of American and English movement leaders policymakers and funders the book demonstrates that democratic participation in food policy is best supported when funders incentivize groups to work together and overcome their differences Geotechnical and Exploration Drilling in the Polar Regions Pavel G. Talalay,2023-01-01 This book provides a comprehensive review of drilling technologies in the polar regions from the portable drilling equipment for shallow sampling and coring to heavy drilling equipment for deep onshore and offshore drilling Particular attention is given to safe drilling methods in permafrost In recent years interest in drilling in the polar regions has increased under the pressure of the geopolitical rush and the undiscovered resource potential In addition borehole monitoring of permafrost thermal states is urgently needed to obtain evidence of climate change The book focuses on the latest drilling technologies but also discusses the historical development of sampling and drilling tools and devices over the last 60 70 years providing valuable insights into a way forward and future possibilities **Congressional Record** United States.
