Professional Journal of the United States Army, 2013 *Science in the Met Office* Great Britain: Parliament: House of Commons: Science and Technology Committee, 2012-02-21 The Met Office currently operates as a Trading Fund within the Department of Business Innovation and Skills BIS The Committee welcomes the move to BIS particularly given the potential for closer links with the research base and the opportunity to develop further its commercial activities Core services though for the public service must be maintained The Met Office generates a significant proportion of its revenues from Government contracts and Customer Service Agreements in addition to its commercial services and the Government should provide clearly defined funding commitments This would allow the Met Office to take a longer term perspective on scientific and operational development The Government has no plans to privatise the Met Office which the Committee saw as putting at risk the strong partnerships built with international partners and the sharing of crucial meteorological data Also the Committee welcomes the Government's initiative of Public Data Corporation Some concern though is expressed that scientific advances in weather forecasting and the associated public benefits particularly in regard to severe weather warnings are available but are being held back by insufficient supercomputing capacity The Met Office should attempt to streamline the scrutiny of science under one committee and develop a strong customer relationship with key government departments **Australian Climate Law in Global Context** Alexander Zahar, Jacqueline Peel, Lee Godden, 2012-11-14 Provides a comprehensive guide to climate change law in Australia and internationally focusing on Australia's implementation of climate related treaties Reaching Outward and Upward Ian MacPherson, 2012-06-01 As the year 2013 and the fiftieth anniversary of the University of Victoria approaches Ian MacPherson offers a comprehensive history of one of Canada's most progressive and visually beautiful campuses A reflection on the people history and legacy of UVic once known as Victoria College a satellite of McGill University Reaching Outward and Upward brings five decades of learning to life From its beginnings in 1963 serving a mere handful of students in a hastily developed site UVic has grown to become one of Canada's leading universities serving over 20 000 students on one of Canada's most stunning university campuses Ian MacPherson examines how this transformation took place despite some difficult phases and all the challenges that accompany institutional transitions the development of new faculties growing student numbers struggles over funding equity issues and computerisation He looks at the university's development during the presidencies of Howard Petch 1975 1990 David Strong 1990 2000 and David Turpin 2000 present and suggests that new ways of knowing changed established disciplines and created new alliances among students and faculty and led to the creation of the numerous research centres for which Uvic is well known A visually rich book including pictures quotations and sidebars Reaching Outward and Upward is above all a story of the communities on campus off campus local national international physical and electronic that together form the University of Victoria The New Normal Amitai Etzioni, 2014-11-05 Amitai Etzioni argues that societies

must find a way to balance individual rights and the common good This point of balance may change as new technologies develop the natural and international environments change and new social forces arise Some believe the United States may be unduly shortchanging individual rights that need to be better protected Specifically should the press be granted more protection Or should its ability to publish state secrets be limited Should surveillance of Americans and others be curtailed Should American terrorists be treated differently from others How one answers these questions Etzioni shows invites a larger fundamental question Where is the proper point of balance between rights and security Etzioni implements the social philosophy liberal communitarianism Its key assumptions are that neither individual rights nor the common good should be privileged that both are core values and that a balance is necessary between them Etzioni argues that we need to find a new balance between our desire for more goods services and affluence particularly because economic growth may continue to be slow and jobs anemic The key question is what makes a good life especially for those whose basic needs are sated
