Eyler, 2024-08-27 An indictment of the grading system in American schools and colleges and a blueprint for how we can change it One of the most urgent and long standing issues in the US education system is its obsession with grades In *Failing Our Future* Joshua R Eyler shines a spotlight on how grades inhibit learning cause problems between parents and children amplify inequities and contribute to the youth mental health crisis Eyler who runs the Center for Excellence in Teaching and Learning at the University of Mississippi illustrates how grades interfere with students intrinsic motivation and perpetuate the idea that school is a place for competition rather than discovery Grades force students to focus on rewards and distract them from exploring ideas or pursuing interests beyond what they ll be tested on In fact grades significantly impede the learning process They are also significantly affecting children s physical emotional and psychological well being Rates of anxiety depression and suicidal ideation have spiked and academic stress tied to grades is a leading cause of this escalation Eyler

shares success stories of grading reform efforts that are already under way as an antidote to the harms caused by the practices currently used in educational institutions. Equal parts scathing and hopeful, *Failing Our Future* aims to improve the lives of students by encouraging them to define success on their own terms. Parents, educators, policymakers, and students will find in these pages a rallying cry for change and a blueprint for how to implement reforms in our homes and classrooms.
