Magazines, Tourism, and Nation-Building in Mexico Claire Lindsay,2018-11-20 This open access book discusses the relationship between periodicals tourism and nation building in Mexico It enquires into how magazines a staple form of the promotional apparatus of tourism since its inception articulated an imaginative geography of Mexico at a time when that

industry became a critical means of economic recovery and political stability after the Revolution. Notwithstanding their vogue, popularity reached and close affiliations to commerce and state over several decades, magazines have not received any sustained critical attention in the scholarship on that period. This book aims to redress that oversight. It argues that illustrated magazines like *Mexican Folkways* (1925, 1937) and *Mexico This Month* (1955, 1971) offer rich and compelling materials in that regard, not only as unique tools for interrogating the ramifications of tourism on the country's reconstruction but as autonomous objects of study that form a vital if complex part of Mexico's visual culture.

Iran's Foreign Policy in the South Caucasus Marzieh Kouhi-Esfahani, 2019-01-10. Iran's role as a regional power is more significant than many in the West may realise. The country lies between Central Asia, the Caucasus and the Gulf region on the one hand and on the other between the Mediterranean, Levant region and South Asia. Many of these areas are of increasing strategic importance. This book explores Iran's role as a regional power, focusing on relations with South Caucasus countries, Azerbaijan and Armenia. It outlines the historical context, including Persia's rule of these countries before the nineteenth century and discusses Iran's approach to foreign and regional policy and how both internal and international factors shape these policies. The book assesses Iran-Azerbaijan and Iran-Armenia bilateral relations to demonstrate how those policies translate in Iran's regional and bilateral relations. The book concludes by considering how Iran's relations in the region are likely to develop in the future.

The Gambia International Monetary Fund. African Dept., 2015-04-22

KEY ISSUES Background The Gambian economy is facing urgent balance of payments needs triggered mostly by the impact of the regional Ebola outbreak on tourism. Although the country remains Ebola free, the regional outbreak is expected to cut by more than half tourism receipts for the 2014/15 season. During 2014/15, the impact of the shocks on the balance of payments, offset in part by lower global fuel prices, is estimated to be 40 million over 5 percent of 2015 GDP. Policy slippages and persistent financial difficulties in public enterprises have exacerbated the problems and pushed The Gambia's ECF arrangement off track. In their Letter of Intent, the authorities have notified the Fund of their decision to cancel the arrangement. Request: The authorities are requesting support under the RCF in an amount of SDR 7.775 million or equivalent to 25 percent of quota to cope with the urgent balance of payments needs and a one-year staff-monitored program (SMP) to guide policy implementation before returning to a successor ECF arrangement, provided policies remain on track. Main policy commitments: The authorities have taken a number of upfront policy actions. The approved 2015 budget envisages lowering net domestic borrowing (NDB) to 1 percent of GDP in 2015 from 12.14 percent in 2014, anchored by a set of revenue and expenditure measures and complemented by some 22 million in external budget support. The authorities have taken steps to resolve the financial problems of key public enterprises and intend to take measures to secure their medium-term fiscal consolidation and poverty reduction objectives. Staff's view: Staff supports the authorities' request. Staff views the package of measures articulated in the attached letter of intent as representing a considerable effort. The RCF disbursement would augment the authorities' own strong adjustment efforts, help catalyze additional donor financing, and give the authorities the time needed to develop their medium-term adjustment plans. The SMP will provide the Gambian authorities an opportunity to establish a track record before moving to a successor ECF to which they aspire. A period of monitoring will also allow the time needed to assess the impact of the shocks fully and hence better tailor the objectives of a successor ECF arrangement.
