Economic Aspects of Genocides, Other Mass Atrocities, and Their Prevention Charles H. Anderton, Jurgen Brauer, 2016-05-09

Alongside other types of mass atrocities genocide has received extensive scholarly policy and practitioner attention Missing however is the contribution of economists to better understand and prevent such crimes This edited collection by 41 accomplished scholars examines economic aspects of genocides other mass atrocities and their prevention Chapters include numerous case studies e g California s Yana people Australia s Aborigines peoples Stalin s killing of Ukrainians Belarus the Holocaust Rwanda DR Congo Indonesia Pakistan Colombia Mexico s drug wars and the targeting of suspects during the Vietnam war probing literature reviews and completely novel work based on extraordinary country specific datasets Also included are chapters on the demographic gendered and economic class nature of genocide Replete with research and policy relevant findings new insights are derived from behavioral economics law and economics political economy macroeconomic modeling microeconomics development economics industrial organization identity economics and other fields Analytical approaches include constrained optimization theory game theory and sophisticated statistical work in data mining econometrics and forecasting A foremost finding of the book concerns atrocity architects purposeful strategic use of violence often manipulating nonrational proclivities among ordinary people to sway their participation in mass murder Relatively understudied in the literature the book also analyzes the options of victims before during and after mass violence Further the book shows how well intended prevention efforts can backfire and increase violence how wrong post genocide design can entrench vested interests to reinforce exclusion of vulnerable peoples and how businesses can become complicit in genocide In addition to the necessity of healthy opportunities in employment education and key sectors in prevention work the book shows why new genocide prevention laws and institutions must be based on reformulated incentives that consider insights from law and economics behavioral economics and collective action economics

Conflict Areas in the Balkans Pinar Yürür, Arda Özkan, 2020-10-27 The situation in the Balkans such as the solution to the status of Kosovo is currently the largest international political problem in Europe with the potential to burst into a world crisis regarding the Eastern Western relations On the other hand a successful solution to the problem in the Balkans could serve as a model for solving the Muslim Christian tensions elsewhere in the world It is the intention of this book to contribute proposals for solutions to the problems of Balkans The starting principle for the solutions to be effective is that they should come in a natural way from the people below and should not be enforced by the political elites from above Based on self determination of nations as a starting principle they should encourage intra regional cooperation among the regional entities economic cultural sport as a basis for

political social understanding and cooperation secondly accelerate their economic political and social development and thirdly as a final step enable the inclusion of the Balkan countries into the European Union

Cohort Change Ratios and their Applications Jack Baker, David A. Swanson, Jeff Tayman, Lucky M. Tedrow, 2017-04-21 This textbook focuses on the cohort change ratio CCR method It presents powerful yet relatively simple ways to generate accurate demographic estimates and forecasts that are cost efficient and require fewer resources than other techniques The concepts analytical frameworks and methodological tools presented do not require extensive knowledge of demographics mathematics or statistics The demographic focus is on the characteristics of populations especially age and sex composition but these methods are applicable estimating and forecasting other characteristics and total population The book contains more traditional applications such as the Hamilton Perry method but also includes new applications of the CCR method such as stable population theory Real world empirical examples are provided for every application along with excel files containing data and program code which are accessible online Topics covered include basic demographic measures sources of demographic information forecasting and estimating both current and historical populations modifications to current methods forecasting school enrollment and other characteristics estimating life expectancy stable population theory decomposition of the CCR into its migration and mortality components and the utility of the CCR This textbook is designed to provide material for an advanced undergraduate or graduate course on demographic methods It can also be used as a supplement for other courses including applied demography business and economic forecasting and market research

Ukraine Over the Edge Gordon M. Hahn, 2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine s divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev s Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovich and Russia s seizure of Crimea and involvement in the civil war in the eastern region of Donbass

An Oral History of the Palestinian Nakba Doctor Nahla Abdo, Nur Masalha, 2018-05-15 In 2018 Palestinians mark the 70th anniversary of the Nakba when over 750 000 people were uprooted and forced to flee their homes in the early days of the

Israeli Palestinian conflict Even today the bitterness and trauma of the Nakba remains raw and it has become the pivotal event both in the shaping of Palestinian identity and in galvanising the resistance to occupation Unearthing an unparalleled body of rich oral testimony An Oral History of the Palestinian Nakba tells the story of this epochal event through the voices of the Palestinians who lived it uncovering remarkable new insights both into Palestinian experiences of the Nakba and into the wider dynamics of the ongoing conflict Drawing together Palestinian accounts from 1948 with those of the present day the book confronts the idea of the Nakba as an event consigned to the past instead revealing it to be an ongoing process aimed at the erasure of Palestinian memory and history In the process each unique and wide ranging contribution leads the way for new directions in Palestinian scholarship *Lands of the Future* Echi Christina Gabbert,Fana Gebresenbet,John G.

Galaty,Günther Schlee,2021-01-15 Rangeland forests and riverine landscapes of pastoral communities in Eastern Africa are increasingly under threat Abetted by states who think that outsiders can better use the lands than the people who have lived there for centuries outside commercial interests have displaced indigenous dwellers from pastoral territories This volume presents case studies from Eastern Africa based on long term field research that vividly illustrate the struggles and strategies of those who face dispossession and also discredit ideological false modernist tropes like backwardness and primitiveness

The State of African Cities, 2014 United Nations Publications,2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa s economic performance is promising with booming cities supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change The Last Mile in Ending Extreme

Poverty Laurence Chandy,Hiroshi Kato,Homi Kharas,2015-07-20 Viewed from a global scale steady progress has been made in reducing extreme poverty defined by the 1 25 a day poverty line over the past three decades This success has sparked renewed enthusiasm about the possibility of eradicating extreme poverty within a generation However progress is expected to become more difficult and slower over time This book will examine three central changes that need to be overcome in traveling the last mile breaking cycles of conflict supporting inclusive growth and managing shocks and risks By uncovering new evidence and identifying new ideas and solutions for spurring peace jobs and resilience in poor countries The Last Mile in Ending Extreme Poverty will outline an agenda to inform poverty reduction strategies for governments donors charities
