Dowdle, 2022-09-08 Globalisation impacts every aspect of modern society and today's law graduates are expected to deal with complex legal problems that require knowledge and training that goes beyond domestic law This textbook provides an overview of how law is becoming increasingly transnational facilitating theoretical and practical engagement with transnational legal institutions and phenomena It advances an analytic framework that will help students to understand what to look for when they encounter transnational legal institutions and practices and what are the practical and normative implications of their findings By considering both the theory and practice of transnational law and taking a discursive approach to the material students are encouraged to arrive at their own conclusions Adopting interdisciplinary techniques and using case studies from around the world this book offers a holistic balanced exploration of a new and emerging discipline *The Impoverishment of the American College Student* James V. Koch, 2019-07-09 Is the end in sight for college tuition hikes Tuition and fees at public colleges and universities consistently have risen twice or even three times as fast as comparable increases in the Consumer Price Index in recent years Since 2000 these costs have even grown 60 percent faster than health care costs The results have been rapidly rising student debt now 1.4 trillion nationally rising delinquencies in debt repayment and a dysfunctional stratification of public college student bodies on the basis of family incomes This is a broken unsustainable model for the majority of public colleges Why has this occurred The multiple causes include declining state support the avaricious behavior of individual institutions their reluctance to adopt productivity increasing innovations their cost increasing competition for higher U.S. News ratings and misdirected federal student financial aid policies The key actors are the 50,000 members of the governing boards of public colleges who too often forget that their primary responsibility is to citizens taxpayers and the 15 million students Instead board members are co-opted by clever administrators into approving

tuition and fee increases well beyond what is needed to make up for declining state funding Concerted informed public pressure on governors legislators and board members is necessary to move institutions in more positive directions Higher education funding and tuition and fee inflation are complicated matters that very few people understand well The Impoverishment of the American College Student clarifies the central issues and provides plentiful data to support its key points It is a must read for anyone who believes that maintaining access to and the affordability of public colleges are vitally important to our society's future
