Africa Special Report ,1992      **Looking Beyond the Runway** Nawal K. Taneja,2016-12-05 The global airline industry facing significant changes and discontinuity is prompted and forced to deal with a new normal Who would have imagined a few years ago that a significant percentage of consumers in the US now prefer to fly low cost airlines instead of full service airlines because they perceive the product to be better airlines would generate up to a third of their total income from non ticket revenue many low cost airlines would add complexity to their original simple business models through the development of code share agreements the use of global distribution systems and travel agents to distribute their seats Jetstar a low cost subsidiary of Qantas would grow faster and be more profitable than its parent a survey carried out by Ryanair would show that 42 percent of passengers would be willing to stand on short one hour flights if they could pay 50 percent less than seated passengers passengers could pay as little as US 2 000 for a transatlantic Business Class ticket on top brand airlines Lufthansa would have ownership in airlines based in Austria Belgium Italy Switzerland Turkey the UK and the US and that it would continue to pursue equity ownership in airlines based in Poland and Scandinavia or the Japanese and Canadian governments would struggle to find different ways to bail out their heretofore flag carriers To deal with this upcoming new normal airlines have to go beyond their short term circumstantial strategies they need strategic renewal of their ageing business model In this candidly written book Nawal Taneja explains what will separate the winners from the losers He maintains the leaders will be the airlines that 1 exploit this crisis driven change to their best advantage 2 learn to work around the airline inherent constraints that prevent them from running their businesses just like other businesses 3 learn from successes and failures of other global enterprises 4 sharpen their business intelligence analytics and strategic agility and 5 proactively explore the pockets of growth in this emerging markets century To help airline executives become informed of new competitive games the author analyzes numerous business sectors such as auto hospitality retail technology and entertainment For example relevant lessons can be learned from the strategic mistakes made by the US automakers Likewise emergent and compelling insights can be gained in superior customer experience from Ritz Carlton and Zappos and in value creating innovation from Cirque du Soleil and Zipcar The book also features a multitude of forewords from airlines and related businesses to provide readers with multiple perspectives on the changing landscape in the global airline industry Nawal Taneja is a career analyst of the global airline industry with wide ranging experience in the aviation industry academia and public policy Encouraged by industry executives he has written five other books for practitioners in the global airline industry including FASTEN YOUR SEATBELT The Passenger is Flying the Plane and Flying Ahead of the Airplane

**Taboo** Jon Entine, 2008-08-05 In virtually every sport in which they are given opportunity to compete people of African descent dominate East Africans own every distance running record Professional sports in the Americas are dominated by men and women of West African descent Why have blacks come to dominate sports Are they somehow physically better And why are we so uncomfortable when we discuss this Drawing on the latest scientific research journalist Jon Entine makes an

irrefutable case for black athletic superiority We learn how scientists have used numerous bogus scientific methods to prove that blacks were either more or less superior physically and how racist scientists have often equated physical prowess with intellectual deficiency Entine recalls the long hard road to integration both on the field and in society And he shows why it isn't just being black that matters it makes a huge difference as to where in Africa your ancestors are from Equal parts sports science and examination of why this topic is so sensitive Taboo is a book that will spark national debate      **The Geopolitical Impact of Climate Mitigation Policies** Sijbren de Jong, Willem L. Auping, Willem Th. Oosterveld, Artur Usanov, Mercedes Abdalla, Alice van de Bovenkamp, Christopher Frattina della Frattina, 2017-04-18 At the Paris Climate Conference held in December 2015 195 countries adopted the Paris Agreement the first universal legally binding global climate deal The signatory parties committed themselves to a global action plan that aims to keep global warming to well below 2 C and to limit the global temperature increase to 1.5 C As part of our Geo Economics research initiative The Hague Centre for Strategic Studies has investigated the geopolitical consequences of climate mitigation and energy transition among a number of countries richly endowed in hydrocarbons who potentially stand to lose a significant part of their revenue stream as a result of demand changes for fossil fuels If demand for oil and gas demand were to decrease as a result of successful climate mitigation policies the financial and social stability of these countries will ceteris paribus be negatively affected especially if they fail to reform their domestic economies The presented study entitled The Geopolitical Impact of Climate Mitigation Policies employs a number of innovative investigative methods and analytical approaches to generate insights regarding sociopolitical stability in the wake of the world's transition to renewable energy systems in a number of major oil and gas exporting nations near Europe On top of this the report looks closely at the energy situation in Sub Saharan Africa and analyzes in detail which choices developing nations face with respect to their future energy mix Given the deep and complex relationship between the global energy sector and international politics these findings have numerous implications both short and long term for our future efforts to combat climate change while simultaneously fending off any consequential drivers of sociopolitical instability      **God Is Back** John Micklethwait, Adrian Wooldridge, 2009-04-02 A landmark examination of the resurgence of faith around the globe The Editor in Chief of The Economist and its Lexington columnist show how the global rise of religion will dramatically impact our century in God Is Back Contrary to the popular assumption that modernism would lead to the rejection of faith American style evangelism has sparked a global revival On the street and in the corridors of power the authors shine a bright light on a vast yet until now hidden world of religion Twenty first century faith is being fueled by a very American emphasis on competition and a customer driven attitude toward salvation Revealing how the religion boom is destabilizing politics and the global economy God Is Back concludes by showing how the same American ideas that created our unique religious style can be applied to channel the rising tide of faith away from volatility and violence      *Reinventing Banking and Finance* Helene Panzarino, Alessandro Hatami, 2020-11-03 Named as the best overall
