Translation and Music Sebnem Susam-Sarajeva, 2016-04-08 Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research Interest in translation and music however has so far been relatively limited mainly because translation of musical material has been considered somewhat outside the limits of translation studies as traditionally conceived Difficulties associated with issues such as the musicality of lyrics the fuzzy boundaries between translation adaptation and rewriting and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera Yet the intersection of translation and music can be a fascinating field to explore and one which can enrich our understanding of what translation is and how it relates to other forms of expression This special issue is an attempt to open up the field of translation and music to a wider audience within translation studies and to an extent within musicology and cultural studies The volume includes contributions from a wide range of musical genres and languages from those that investigate translation and code switching in North African rap and rai and the intertextual and intersemiotic translations revolving around Mahler's lieder in Chinese to the appropriation and after life of Kurdish folk songs in Turkish and the emergence of rock n roll in Russian Other papers examine the reception of Anglo American stage musicals and musical films in Italy and Spain the concept of singability with examples from Scandinavian languages and the French dubbing of musical episodes of TV series The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music Understanding the Women of Mozart's Operas Kristi

Brown-Montesano, 2007-02-07 Is The Marriage of Figaro just about Figaro Is Don Giovanni's story the only one or even the most interesting one in the opera that bears his name For generations of critics historians and directors it's Mozart's men who have mattered most Too often the female characters have been understood from the male protagonist's point of view or simply reduced on stage and in print to paper cutouts from the age of the powdered wig and the tightly cinched corset It's

time to give Mozart's women and Mozart's multi-dimensional portrayals of feminine character their due. In this lively book Kristi Brown Montesano offers a detailed exploration of the female roles in Mozart's four most frequently performed operas: *Le nozze di Figaro*, *Don Giovanni*, *Cos fan tutte*, and *Die Zauberflöte*. Each chapter takes a close look at the music, libretto, text, literary sources, and historical factors that give shape to a character, re-evaluating common assumptions and proposing fresh interpretations. Brown Montesano views each character as the subject of a story, not merely the object of a hero's narrative or the stock figure of convention. From amiable Zerlina to the awesome Queen of the Night to calculating Despina, all of Mozart's women have something unique to say. These readings also tackle provocative social, political, and cultural issues which are used in the operas to define positive and negative images of femininity: revenge, power, seduction, resistance, autonomy, sacrifice, faithfulness, class, maternity, and sisterhood. Keenly aware of the historical gap between the origins of these works and contemporary culture, Brown Montesano discusses how attitudes about such concepts past and present influence our appreciation of these fascinating representations of women.
