A Question of Answers W. P. Robinson, Susan J.

Rackstraw, 2025-05-09 In the early 1970s, the problem of arousing and maintaining the curiosity of children had been a recurrent theme in reports concerned with the development of new school curricula. However, before these ideas could be translated into soundly based practical measures, an increased understanding of what is involved in the activities of questioning and answering was needed. Originally published in 1972, the research reported in these two volumes presents a theoretical framework for describing linguistic features of a range of verbally expressed answers and their associated questions. Basil Bernstein's theory is used to generate a number of predictions about the variety and quality of answers that mothers and children are likely to offer to various questions. The usefulness of the scheme is tested against the answering behaviour of members of different social classes, and in the main, Bernstein's predictions are supported. The validity of the categories in the classificatory scheme is explored more fully in later chapters by means of a correlational analysis of the answers of seven-year-old children. Volumes sold separately.

The Gospel of John Question by Question provides useful material and a format that will enhance both introductory courses in the Gospel of John and adult study groups. Other publications on the topic offer comments on every chapter of the Gospel or topical explanations of the Gospel's subject matter. This book combines these two practices often in that it provides brief commentary on biblical texts and periodically provides background on a topic relative to the Gospel. The book consists of twenty chapters. Each chapter includes an Introduction of pertinent information that will be helpful before reading the biblical text. One of the main features of the book surfaces in the Questions that appear in each chapter, which help clarify the meaning and message of the text and its context. These questions intend to clarify the issues of each chapter by raising an inquiry into an unclear issue. Answers appear in the second section of the book so as to provide the opportunity for the reader to discover the answer before turning to responses that have been provided for each question. At the end of the Questions in each chapter, a

Conclusion will summarize the chapter and advance the reader to the next chapter
