Embedded Systems Dictionary Jack Ganssle, 2003-01-04 This technical dictionary defines the 2 500 most used words in the embedded systems field with over 4 500 entries and cross references Designed to serve both the technical and non technical audience this book defines advanced terms in two steps The fi

A Heretic's Guide to Eternity Spencer Burke, Barry Taylor, 2007-06-15 Distinguishing between religion and spirituality Burke offers what he calls a new way of looking at God one centered on the idea of grace He emphasizes a God who is looking to save the world not a God who seems more intent on condemning certain practices For Burke God is to be questioned not simply obeyed His challenging thesis will appeal to many people today who have given up on organized religion but still seek some connection to spirituality The Other Side: A Memoir Lacy M. Johnson, 2014-07-15 Lacy Johnson's rich and poetic memoir The Other Side chronicles her brutal kidnapping and imprisonment at the hands of an ex boyfriend her dramatic escape and her hard fought struggle to recover Lacy Johnson bangs on the glass doors of a sleepy local police station in the middle of the night Her feet are bare her body is bruised and bloody U bolts dangle from her wrists She has escaped but not unscathed The Other Side is the haunting account of a first passionate and then abusive relationship the events leading to Johnson's kidnapping rape and imprisonment her dramatic escape and her hard fought struggle to recover At once thrilling terrifying harrowing and hopeful The Other Side offers more than just a true crime record In language both stark and poetic Johnson weaves together a richly personal narrative with police and FBI reports psychological records and neurological experiments delivering a raw and unforgettable story of trauma and transformation

Disaster Communications in a Changing Media World

George Haddow, Kim S Haddow, 2008-10-29 Communications is key to the success of disaster mitigation preparedness response and recovery Accurate information disseminated to the general public to elected officials and community leaders and to the media reduces risk saves lives and property and speeds recovery The ability to communicate is no longer an afterthought or a luxury timely communication is now as important as logistics or the pre deployment of materials Planning and controlling the flow of information before during and after a disaster will define your organization s credibility trustworthiness authority and effectiveness The emergence of new media like the internet e mail blogs text messaging cell phone photos and the increasing role played by first informers witnesses who now have the ability to transmit information immediately from the event are redefining the roles of government and media The government s historical role as gatekeeper is now an anachronism Traditional media s role as the sole conduit of reliable and officially sanctioned information has been eclipsed by the advent of new media The tools and rules of communications are evolving and disaster communications must evolve to capitalize on these changes and exploit the opportunities they provide Bloggers have the potential either to add to the chaos during a crisis or to help convey accurate data and report on local conditions Disaster communications must incorporate a way to manage their impact and if possible use them for the common good Finally even though the means to the end are evolving the goals the values and the underlying principles of effective disaster communication the need for transparency increased accessibility trustworthiness and reliability and to create partnerships with the media have not changed and need to be embraced along with the practical ability to convey information effectively Applies the principles of emergency management to communications during a disaster Covers terrorist incidents accidents and natural disasters like hurricanes and earthquakes Shows how to use blogs text messages and cell phone cameras as well as government channels and traditional media to communicate during a crisis
