Foundations of Physical Science Tom Hsu, 2018 **'1'** Orest Bedrij, 2008-12-17 During the last seventy five years remarkable advances in methods of observing and measuring the small scale and the large scale structure of the universe have added to our knowledge of what the foundations of the universe itself are like now and what it was like in the past going back to the big bang In a series of self evident leaps of insight Bedrij delves into a new direction of physics by explaining different phenomena using the same one law 1 He has integrated the cutting edge of the work of the most significant and profound thinkers of modern science and mathematics with high precision measurements of physics producing a simple physical description of the foundation and mathematization of physics He characterizes the empty space as the laws of physics unchanging frame of reference 1 or pure awareness that could not be distinguished with mathematics but can be with physics In addition to the nature of scientific fundamentals and the nature of unity under a single framework Bedrij provides intimate glimpses of Wheeler Bohr Cantor Einstein and other exemplars of the scientific spirit who understood that we are ourselves both actors and spectators He characterizes the nature of time and the nature of space and how the unifying process takes place Bedrij shows where the missing element of physics and pure awareness the integration of pure consciousness into physics exist in the foundations of the universe He demonstrates why in spin dynamics of quantum physics the use of our treasured but unmeasured mathematical 2 constant is less close to the truth than one would have thought and why it creates chaos in the unification of physics He also demonstrates how the enormous progress that theoretical and experimental quantum physics has undergone during the last seventy five years can be tremendously accelerated by the application of the Logarithmic Slide Rule of Physical Relationships LSPR Similar to the logarithmic slide rule that is used for the prediction of mathematical relationship of numbers the LSPR is a rigorously exact instrument used for the prediction verification and the unification of physical relationship of quantities the laws of physics and the fundamental physical constants *Fundamentals of Physical Science* Konrad Bates Krauskopf, 1953 **'1': the Ultimate Foundation of Nature** Orest Bedrij, 2015-11-10 BACK COVER TEXT 1 The Ultimate Foundation of Nature may very well be the most important conceptual breakthrough in the prediction validation and unification of physics It provides solutions to challenges posed by the greatest minds of all time Eugene Wigner of Princeton University 1963 Nobel laureate in physics stated The full meaning of life the collective meaning of all human desires is fundamentally a mystery beyond our grasp We have no right to expect that our intellect can formulate perfect concepts for the full understanding of inanimate nature's phenomena Max Planck from the University of Berlin 1918 Nobel laureate in physics declared Science cannot solve the ultimate mystery of nature And it is because in the last analysis we ourselves are part of the mystery we are trying to solve In 1 The Ultimate Foundation of Nature we suggest that you have in your hands the solution for the ultimate mystery of nature that has no explanations in terms of deeper principles It is based on the laws of physics the unchanging frame of reference the 1 predicting validating

and unifying different laws and theories in a seamless all embracing theory of everything Some Earlier Reviews on Books by Orest Bedrij By integrating spiritual validations with scientific evidence placing one upon the other in verification after verification Orest Bedrij arrives at an amalgam of the one single fundamental concept 1 a holy vision of you the nature of God and the theory of everything Dr Tibor Horvath SJ Professor Emeritus University of Toronto Founder General Editor Ultimate Reality and Meaning This book is an important stepping stone to a quantum jump in evolution a world of oneness which is in the making under our very eyes May this book inspire leaders to catch up with the sages of our times who are revealing to us the fundamental oneness of humanity and all creation Dr Robert Muller Chancellor of the United Nations University for Peace Former Assistant Secretary General of the United Nations Here is a manual for raising the human dimension and struggle to its cosmic significance Its encyclopedic scope and depth is the product of a lifetime of dedicated study Orest Bedrij brings fresh light to the Divine disguise in time The book turns into the coinage of everyday parlance Dr Glen A Olds Former President of Kent State University US Ambassador to the UN Economic and Social Counsel Cover design by Andrew Patapis **Pamphlet - Dept. of the Army** United States.
